Article 4 – Seniority

A. Company Service Date

An employee's Company Seniority, or "Company Service" date, begins on the date the employee was placed on the payroll when he was most recently hired by the Company. The Company Service date reflects adjustments for periods of inactive service as defined herein. The adjusted Company Service date is retained until the employee is separated from Continental employment. Company Service date determines benefit eligibility, vesting in benefit programs such as retirement, rate of vacation accruals and vacation bidding, pass boarding priority, and service pins/awards. Company Service date should not be confused with Craft Seniority (see paragraph C, below) which is used for most bidding purposes.

B. Pay Seniority

Pay Seniority determines an employee's position on the pay scale. While it is adjusted for periods of unpaid time off, such as leaves of absence, furloughs, LOAP, etc., step increases are given to employees after they complete the specified time as an active employee in a paid status, except as provided in paragraphs H.4 (a) and (b) below.

1. Employees going from one Classification to another Classification within the same Craft will retain their Pay Seniority.
2. Employees going from one Classification to another Classification within different Crafts will have a Pay Seniority date based on their Craft Seniority in the new Craft, including any that they previously retained/accrued, unless the employee is forced to move to a lower paying Craft in which case he shall retain the pay seniority from the previous Craft.

C. Craft Seniority

1. An employee's "Craft Seniority" date is established upon entering a Craft. Employees hired or transferred into a Craft will be placed on that Craft Seniority List on the first day they work in the Craft, including training/orientation days. For this purpose, employees working the night/graveyard shift (with a starting time before midnight) are considered as working on the day on which they begin their shift.
2. When two or more employees hold the same Craft date, their seniority ranking will be established based on their Adjusted Company Service Date. When two or more employees hold the same Adjusted Company Service Date, the seniority order will be determined by placing the employees in the order in which their birth dates fall in the calendar year, with the earliest date in the year being the most senior. Effective on the date of signing of this Agreement, if two or more

Tentative Agreement

employees hold the same Craft Date, adjusted Company Service Date and birthday, their seniority ranking will be established using the last four (4) digits of their social security numbers, the most senior being the one with the highest number.

3. Once an employee has attained a Craft Seniority date, that date is retained when moving to other Classifications within the same Craft.
4. Employees who move to a different Craft will continue to retain and accrue seniority in the previous Craft(s) while working in the new Craft, except that a Technician who moves to the Utility Specialist ~~Mechanic~~ Craft will only retain Technician Craft Seniority for a period of six (6) years, and will not accrue Technician Craft Seniority while working as a Utility Specialist ~~Mechanic~~, unless the move to Utility Specialist ~~Mechanic~~ is the next Bid Area following a RIF which bumped him from his Technician position or he was otherwise forced into the Utility Specialist position.

D. Classifications And Crafts

The Classifications and Crafts covered by this Agreement are:

<u>Classification</u>	<u>Craft</u>
Inspector	Technician
Lead Technician	Technician
RAMS Team (Structural)	Technician
GSE Coordinator	Technician
Technician	Technician
Utility Mechanic <u>Specialist</u>	Utility Mechanic <u>Specialist</u>
<u>Lead Utility Specialist</u>	<u>Utility Specialist</u>
Cleaner	Cleaner

2. The Company shall prepare and post system Seniority Lists by Craft Seniority showing the name, Craft Seniority date, and Company Seniority date for each employee, in the order of their Craft Seniority. In addition to the system-wide list, the Company shall also prepare and post a Station Seniority List with the same information as above, but listing only information for the current employees at that station. Both lists will be updated and posted sixty to ninety (60 – 90) days before the posting of the Shift Bid in each station and each Bid Area. Such lists will be subject to correction upon protest for a period of thirty (30) days. If no complaint is made within thirty (30) days of the posting, the list as published will

Tentative Agreement

be assumed to be correct, and thereafter no changes will be made except under extraordinary circumstances. Seniority lists will also be provided to the Union when they are posted. Electronic posting and transmission of seniority lists will be deemed sufficient to satisfy the posting and notice requirements of this Article, along with an electronic copy to each local union office.

3. **Probation**

- a. New employees shall be on probation for the first one hundred eighty (180) calendar days of active employment under this Agreement. Upon successful completion of their probationary period, employees will be retained on the Seniority List in the order of their craft date.

Probationary employees will be allowed to bid for shift, work area and days off in accordance with Article 7, and the award of such bid shall become effective after successful completion of the probationary period.
- c. There is only one probationary period for each employee, except that an employee who leaves the service of the Company for any reason and is later rehired, will be treated as a new hire, including the serving of another period of probation. No credit for previous Company service will be given.
- d. With the Union's concurrence, the Company may extend an employee's probationary period, either for performance reasons, or because the employee is relocating to a different work area.
- e. The Company will evaluate probationary employees on a bi-monthly basis and document such evaluation for review by the Union if requested.
- e.f. Employees may be discharged during their probationary period without a fact-finding meeting or recourse to the Grievance Procedure.

F. Loss Of Craft Seniority

Craft Seniority will be lost and the employee's name will be removed from the Craft Seniority list for the following reasons:

- 1. Resignation or termination, or
- 2. Retirement, or
- 3. Discharge for Just Cause, or

Tentative Agreement

5. Failure to accept recall from lay off within fourteen (14) calendar days after written notice was received by the employee, or failure to report to work within fourteen (14) calendar days after acceptance of recall. Notice will be sent Certified Mail, Return Receipt Requested, to the last address on record with the company. Once notice of recall is received, the employee must report to work within twenty-eight (28) calendar days unless an extension is mutually agreed to between the Company and the employee. It shall be the responsibility of the employee to maintain their current address with the Company, or
6. When an employee with less than six (6) years of craft seniority at the time of furlough does not return from lay off status for six (6) years, ~~or the employee's length of service, whichever is less;~~ or, when an employee with six (6) or more years of craft seniority at the time of furlough does not return from lay off status within a period equal to the employee's length of service, or
7. Voluntary transfer or promotion to an hourly or salaried job not covered by this Agreement (excluding management positions in Technical Operations below the Director level), unless such transfer is because of a reduction in force that affects the transferring employee, in which case that employee will retain and accrue Craft Seniority, or
8. The employee does not return from a Medical Leave of Absence within five (5) years or the employee's length of service whichever is less, or as specified by applicable law.

G. Supervisory Or Special Assignment

1. Employees who are promoted on a permanent basis to any management or administrative position below the Director level will continue to retain seniority in the Craft(s) they vacated, but will accrue such seniority for only the first six (6) months while working in management.
2. When employees in management or administrative positions desire to return voluntarily to a Craft covered by this Agreement, in which they retain seniority, they may use their craft seniority to bid for available vacancies in said Craft, but in no event will an employee be furloughed or bumped from his location as a result of the return to the unit of a management or administrative employee.
3. When employees in management or administrative positions are involuntarily demoted, or reduced due to a Reduction-In-Force, they may exercise their Craft seniority to return to positions in Crafts in which they hold seniority, but in no event will an employee be furloughed or bumped from his location as a result of the return to the unit of a management or administrative employee.

Tentative Agreement

Agreement may not be filled on a temporary basis by upgrade, or assignment to another Work Area and/or Bid Area, for more than sixty (60) cumulative working days within a rolling twelve (12) months. To allow for accurate tracking, ~~of such assignments, notice of temporary upgrades and/or assignments of a full shift or more to another Bid Area~~ will be given to the Union Representative or his designee by the Supervisor requesting such upgrade or temporary assignment. Within sixty (60) days of the ratification of this Agreement the Company and the Union shall meet and agree upon a form for the purpose of tracking such upgrades.

3. The time limit provisions of this Section shall not apply to a Temporary Vacancy created as a result of Section F, Paragraph 2.
4. In order to be upgraded as a Lead, an employee must have passed his probation and/or Qualifying Period in the Bid Area for which the Lead upgrade exists.

F. Voluntary Reduction In Classification

Inspectors and Leads in all Crafts and Classifications may voluntarily downgrade, permanently or temporarily, to a different/lower Classification in any Craft in which they maintain Craft Seniority. This may be done in the following manner:

1. If a vacancy exists at his Point, after Recall and Reduction in Force Procedures have been complied with in that order, an Inspector or Lead may fill the vacancy on a permanent basis prior to its being filled by a less senior ~~preferential~~ bidder. If two or more employees at a Point wish to downgrade at the same time, any competition between them for a vacancy shall be resolved by the use of Craft Seniority, with the most senior being awarded the vacancy. Any Inspector or Lead who downgrades in this manner is prohibited from bidding for, or accepting, an Inspector or Lead position, as the case may be, for a period of one (1) year beginning from the date of his downgrade. Downgrading employees do not have recall rights to the position they vacated. The resulting vacancy in the Inspector or Lead Classification will be filled using the procedures outlined in this Article.
2. If no vacancy exists at his Point, an Inspector or Lead may nonetheless downgrade temporarily (six (6) months or less) to a different/lower Classification, provided there is another employee at the Point who is qualified for temporary upgrade to the position vacated. At the end of six (6) months the downgrading employee must return to his Inspector or Lead position unless he was awarded, ~~by way of preferential bid~~, a permanent vacancy at the Point, or within the system, during the six (6) month period. If the employee refuses to return to his Inspector or Lead position he will be placed on LOAP status, not to include displacement rights. In that case his recall rights will be limited to the lower Classification, and not to the Inspector or Lead Classification. Any resulting vacancy in the Inspector or Lead Classification will be filled using the procedures outlined in this Article. Should a shift rebid occur during the period of the downgrade, the downgrading Inspector or Lead will bid as Inspector or Lead and the upgrading Technician will

Tentative Agreement

bid as a Technician. The two employees shall assume each others' bidded positions for the duration of the downgrade. An employee who downgrades temporarily may not do so again for one (1) year following return to his Inspector or Lead position. An employee may not downgrade in this manner more than three (3) times during his employment with the Company.

Tentative Agreement

Article 6 - Reduction-In-Force (RIF) and Recall

- A. When the number of employees must be reduced, Craft seniority shall govern. The employees with the least Craft Seniority by classification, by station in the affected Bid Area will be reduced.
- B. Beginning with the most senior employee affected by a reduction as provided in paragraph A above, employee(s) affected by a RIF may exercise Craft Seniority in the following order:
 - 1. Displace the junior employee in any Bid Area within his Craft/classification (unless the employee chooses to displace to a lower Craft/classification), at his station/Point for which he meets the minimum qualifications in accordance with Article 3, and in which he has the seniority to displace, or at the employee's option, displace the system in the Bid Area from which he was reduced in any station/Point his seniority will allow.

Note: For purposes of this Article (Reduction-In-Force) the following geographic locations, having two (2) or more stations in close proximity to one another, are considered one (1) Point:

IAH – HOU – VIC, MIA – FLL, LAX – SAN – SNA,
EWR – LGA, and GSO – RDU, ~~and DIA – DEN~~

An employee at one of these stations may elect to bump a more junior employee at the other station within the same Point (e.g. IAH-HOU) in the manner described in paragraph B.1 above. The parties agree that during the term of this Agreement they will meet and confer at either party's request regarding the need or desire to add to or delete from the list of stations considered to be a single Point.

- 2. If unable to exercise all options in B(1) above, that he is qualified for in accordance with Article 3, that would enable him to displace at his home station/Point or any of his selected options he chose on the system in his Bid Area, in a manner that would allow him to remain at his current base rate or higher (excluding shift and line premiums), he may staff any position in the system he has the seniority to displace and for which he meets the minimum qualifications in accordance with Article 3.
- 3. At his option, the employee may take lay off at the point ("LOAP") in lieu of any of the foregoing.
- 4. If the Company decides to move work from one Company location to another on a permanent basis (i.e., sixty (60) days or more), resulting in a net head count loss at the location losing the work, beginning with the most senior employee in the affected Bid Area, the net number of affected employees in the affected Bid Area shall have the option to exercise seniority to follow that work to the location or locations to which it is transferred, before vacancies are offered to other employees, including

Tentative Agreement

those with recall rights or new hires, at the location or locations. An employee who declines to exercise his seniority and becomes excess in the Bid Area shall then become surplus within that location and shall be afforded his furlough and recall rights under this Article.

- C. An employee affected as well as employees who potentially may be affected by a RIF ~~who fails to exercise or may be displaced pursuant to this Article, will be offered the opportunity to designate, in the order provided above (paragraphs B.1, 2, 3), election of his options within fourteen (14) calendar seven (7) calendar days after written was delivered in person, or within ten (10) days after written notification was sent Certified Mail, (Return Receipt Requested) to the current address on file with the Company., will be placed on LOAP, absent extenuating circumstances.~~ The potentially affected employees' option sheets will not be exercised unless that employee is affected by the reduction in force or displaced by a senior employee. An employee who does not designate his options and is affected by the RIF or displacement will be placed on LOAP, absent extenuating circumstances (see LOA#30 – RIF Options).
- D. The recall procedures in this Article will be applied before a permanent vacancy is filled by operation of either the bumping procedures described above or the bidding procedures described in Article 5. During a reduction-in force ("RIF") the company will "freeze" ~~the system-wide preferential~~ any open bids on the system file no later than the day RIF notices are issued, and will not fill vacancies on the System until all RIFs are finally processed. The Company shall maintain records reflecting system-wide staffing. The Company will inform the Local Union prior to filling any position(s). In addition, at the time of any RIF ~~(when the preferential bid file is frozen)~~ the Company will provide the International and the affected Local Union(s) with a "snapshot" of the system-wide staffing including positions staffed, positions not staffed (vacancies), and positions to be eliminated. In addition, throughout the RIF process the Company will maintain and keep sufficient documentation, whether electronically or otherwise, to permit an audit if requested by an affected employee or the Union.
- E. After the Company completes the RIF process, an employee who is to be placed on LOAP will be given a minimum of fourteen (14) calendar days written notice in advance of the effective date, or straight time pay in lieu of such notice. Employees will not be entitled to notice/or pay in lieu of notice if the RIF is due to circumstances beyond the control of the Company, such as an act of God, a war emergency, revocation of an operating certificate, grounding of aircraft, or a strike.
- F. An employee who is laid off will receive full payment for unused vacation time credited from the previous year, as well as vacation accrued up to the time of lay off. However, at the employee's option he may keep his accrued vacation bank, to be used if recalled, until the end of the calendar year in which it was accrued for. If not recalled by December 31st of that year he will be paid for all such hours stated above.
- G. An employee on lay off will continue to have standard employee pass privileges for six (6) months beginning with the effective date of his lay off.

Tentative Agreement

- H. An employee's recall rights to a Point and Classification remain in effect throughout his active employment with the Company. However, recall rights of furloughed employees expire in accordance with the provisions of Article 4.F.6 after the period of time equal to an employee's length of service, or six (6) years, whichever is shorter. If he has not been recalled at that time, the employee's name will be removed from the seniority list, and he will have no further rights under this Agreement.
- I. Recall to a permanent vacancy will be in Craft Seniority order, beginning with the most senior employee, among those employees who have recall rights to that vacancy, provided the employee has the qualifications for the job as set forth in Article 3, Covered Crafts, Classifications, Qualifications and Bid Areas.
- J. An employee will have recall rights to every Classification for which he is qualified at his current station (the station he has displaced to pursuant to this Article), provided it does not result in a lower base rate of pay, and to every Classification for which he is qualified at each station/Point from which he was involuntarily displaced by application of these RIF rules, provided that he has not declined recall to the same Classification at the same station/Point since his most recent reduction or displacement from same, or otherwise lost his recall rights pursuant to the terms of this Article. An employee will not lose his recall rights to the station he was furloughed from if he accepts a position at another station within the same point.
- K. An employee will lose his recall rights to a vacancy at a station/Point if he refuses recall to the same Classification at the same station/Point. Refusing recall to one Classification will not result in loss of recall rights to a different Classification at the same station/Point. An employee with recall rights who voluntarily transfers to a vacancy at a station/Point other than those from which he was RIFed will not forfeit his recall rights. An employee on furlough status shall have the right to bid for vacancies on the system pursuant to Article 5 without forfeiting his recall rights.
- L. An employee who is on LOAP may refuse temporary recall of less than 180 days without loss of recall or employment rights. When a temporary position becomes permanent, the recall provisions of this Article will be used to fill the position regardless of temporary staffing.
- M. To maintain eligibility for recall, furloughed employees must keep a current address and phone number on file with the Company. An employee will be administratively terminated, absent extenuating circumstances, if written notice of recall is undeliverable at his last address of record (notification of recall will be mailed return receipt requested); if he fails to accept recall from furlough within fourteen (14) calendar days of receipt of notification; or if he fails to report to work within fourteen (14) calendar days after acceptance of recall, unless mutually agreed otherwise between the Company and the employee.
- N. In the event of administrative termination due to failure to accept recall, or to report after acceptance of recall, written notice of that action by the Company will be sent by mail, return receipt requested, to the employee's last address of record and to the employee's local Union.

Tentative Agreement

- O. For Employees not on furlough or lay off status (those still working, but in different positions within the Company) who are being recalled, the Company may hand deliver an unregistered and uncertified written recall notice to such employee provided that a signature receipt is obtained from the employee.
- P. If an employee is unable to return to the service of the Company at the time of recall because of an illness or injury, he shall remain on furlough until he is released by his doctor to return to work. In order to preserve his rights under this Agreement, an employee must notify the Company within the fourteen (14) day response period as specified in Paragraph M above, and provide proper medical documentation as provided by the employee's attending physician as soon as possible. Once released to return to work, the employee may at that time exercise his seniority in accordance with paragraphs I and J and his original notice of recall.
- Q. Employees' medical benefits will continue until the end of the month in which pay continuation furlough pay ceases, as provided in paragraph S.2 below.
- R. A copy of all furlough and recall notices provided to employees pursuant to this Article will be sent to the Union at the same time that the notice is provided to the employee.
- S. Furlough Pay
1. An employee who has completed at least one (1) year of compensated service with the Company prior to being laid off, through no fault or action of his own, shall receive furlough pay as provided by paragraph S.2 of this Article, paid as pay continuation, but shall not receive furlough pay if any one (1) or more of the following conditions exist:
 - a. He exercises his seniority to remain in the employ of the Company.
 - b. He accepts any other employment with the Company or refuses to accept a job in his own classification at his base or station as provided for in this Article 6.
 - c. He fails to exercise his seniority in any classification which would enable him to remain in the employ of the Company, except that refusal to exercise his seniority at another station/Point shall not prevent him from receiving furlough pay
 - d. He is dismissed for just cause, resigns or retires.
 2. The amount of furlough pay due under this Article shall be based on the length of actual straight time compensated service with the Company, shall commence on the first day following the effective day of his furlough, and shall be computed on the basis of the employee's regular "Hourly Base Rate of Pay" as defined in Article 15 at the time of layoff as follows: one (1) week of furlough pay for each year of service to a maximum of ~~thirteen (13)~~ fifteen (15) weeks.

Tentative Agreement

Article 7 - Hours of Service

- A. The normal work week consists of five (5) consecutive work days, followed by two (2) consecutive days off. The normal day is eight (8) hours of work with a thirty (30) minute unpaid meal period. A ten (10) minute rest period will be given during the first half of the shift and another ten (10) minute rest period will be given during the second half.
- B. In certain locations the normal work week consists of four (4) consecutive work days of ten (10) hours per day, with an unpaid thirty (30) minute meal period, followed by three (3) consecutive days off. Three (3) ten (10) minute rest periods will be given during the ten (10) hour shift.
- C. At no time will the Company schedule an employee for less than forty (40) hours of work per week, except as required by law.
- D. Employees who do not receive a thirty (30) minute meal period between the 3rd and 6th hours of their regular shift will, in conjunction with the needs of service, receive one of the following two (2) options:
 - 1. Receive thirty (30) minutes additional pay at the applicable overtime rate, or
 - 2. Leave work thirty (30) minutes early with pay before the normal shift end time.
- E. The Company may, if concurrence is reached with the local Union Representative, establish a paid meal period for any or all of a given work group.
- F. Starting and ending times of each shift, whether eight (8) or ten (10) hours, will be posted at each Shift Bid and will under ordinary circumstances remain unchanged until the next shift bid. Should the starting/end time be changed by one (1) hour or more, all shifts in that Bid Area will be re-bid.
- G. Day shift shall be considered the first shift of the day, and is any shift which begins on or after 0500 and up until 1000. The swing shift will be considered the second shift of the day, and shall start no earlier than 1001 nor later than 1600. Graveyard shift shall be considered as the third shift of the day, and is any shift which begins at or after 1601 and prior to 0500.

Tentative Agreement

H. Duty Limitations

Except in emergencies, as defined in Article 2, an employee shall not work more than twenty (20) work hours, exclusive of lunch, in his twenty-four (24) hour day, nor more than thirty-six (36) work hours, exclusive of lunch, in any two (2) consecutive twenty-four (24) hour days. An employee's twenty-four (24) hour day begins with the starting time of that employee's regularly scheduled shift. Job continuation in conjunction with a shift in progress is permitted in conjunction with these maximums.

- I. Except as otherwise provided in this Agreement, when an employee has his hours of work temporarily changed and is thereafter returned to his regular assignment, he will have eight (8) hours rest after his last preceding work assignment. In the event that the rest period extends into the employee's regular work shift, he shall be paid at straight time rates for the time lost from his regular schedule which would provide him with the eight (8) hours rest. If an employee is not provided with the rest period as prescribed above, he shall receive his applicable overtime rate for all hours worked until such time as the employee is relieved for a rest period of no less than eight (8) hours.

J. Adverse Conditions

In any location the Director of Technical Operations or his designee may declare the day an "Adverse Condition Day." The Company shall establish a phone contact number that employees can call to determine the status of their specific work facility during adverse conditions. Upon contact the employee will be given the time of day the last message was updated and a definitive answer as to the current status of their facility during adverse conditions. If adverse conditions at the facility are declared and no definitive answer is given with respect to the facility or work area(s) being "Open" or "Closed" within at least two (2) hours of shift starting time, employees scheduled to work that shift are entitled to treat the facility as "Open."

(Note: One work area within a facility may be Open while another is Closed, even though both are in a single location that has been declared to be under Adverse Condition rules, however, under no circumstances will any work area(s) within one facility be deemed to be under Adverse Conditions while another is not.)

(Note: Decisions made by federal state or local government officials concerning travel or accessibility to the work place shall be considered in determining individual employee's ability to report to work. Employees unable to report to work due to above made decisions shall be entitled to the provisions in paragraph 1 below (Facility Open).

When an Adverse Condition has been declared, absence from duty will be treated as follows:

Tentative Agreement

1. Facility Open

- a. On an Adverse Condition Day an employee will be allowed to report for work up to sixty (60) minutes late with no loss of pay for absence/tardiness. An employee arriving later than sixty (60) minutes after the beginning of the shift will be paid only for the actual hours worked. In neither case will an employee be charged with an absence/tardiness.
- b. Occasionally an employee is delayed or absent due to adverse conditions. If an employee is unable to report to work, he will not be paid for that day, nor will he be charged with an absence, but will be allowed to make up the day within a period mutually agreed to by the employee and his supervisor. This period will not be greater than fourteen (14) calendar days, or, at the employee's option thirty (30) days, unless agreed to by the employee and his supervisor.
- c. In departments that operate seven (7) days per week or allow day at a time vacation, an employee will be allowed to use any deferred or floating holidays or a vacation day to make up work missed when absent due to adverse conditions.
- d. An employee who is scheduled and does report to work on time will be entitled to full pay for the day unless the employee is not needed and voluntarily takes the day without pay (AUTO).

2. Facility Closed

- a. When the decision to close a facility is made before the start of a shift, the Company will try to notify employees not to report to work. An employee who misses work due to a facility closure will be paid for the hours missed on the employee's first scheduled work day during the facility closure for the first day. Employees will be able to use vacation, deferred or floating holidays to make up for regularly scheduled hours missed on the second and subsequent days during the facility closure. Employees may also choose to make up regularly scheduled shifts missed within the period up to a maximum of thirty (30) days following closure of a facility as mutually agreed to by the employee and his supervisor. After the facility has been closed, the Division Head Company will determine when the facility can expect to reopen and notify all affected employees. how pay and/or make-up hours will be handled.
- b. At locations that have more than one (1) shift assigned to work, the decision to close may apply to only one (1) shift. When the decision is made to close a facility during a shift, an employee who is at work at the

Tentative Agreement

time of the decision will receive pay for the remainder of the scheduled shift.

- c. Absence due to a facility closure will not be counted as an absence.

K. Shift Bids

1. All employees covered by this Agreement have an assigned Bid Area. Within the Bid Area, all employees work an awarded shift with scheduled days off. In some Stations, generally the larger ones, certain Bid Areas may consist of several different Work Areas (ie: Zone1, Zone2 etc., Wide Body Crew, Hangar 55, Hangar 56, GSE Line, GSE Hangar etc.) In these instances all employees will have the option to bid, by seniority, into different work areas within the same Bid Area during each local Shift Bid. Except relief shifts, each employee shall have the same starting time on each of his regularly scheduled workdays. Employees transferring into a Bid Area will select a "Shift and Days Off pattern" from those available by Craft Seniority. (See, LOA #10, at page 1.)
2. At least twice a year (i.e., on a semi-annual basis, generally near the spring and fall time changes) each Bid Area will have a "Rebid for shift and days off." In no event will such rebids be separated by more than nine (9) months unless all employees in the Bid Area agree to waive such rebid. The Company will confer with the Local Union at each Station regarding shift/day off patterns in each Bid Area/Work Area prior to posting the shift bid.
3. Shift bids will be posted by the Company at least 30 days before bidding starts. Results of the shift bid will be posted by the Company at least seven (7) days before its effective date. To minimize disruption of work schedules, the effective date of a shift bid will be the first day of a pay period.
4. When a new or vacant shift becomes available, the senior interested employee(s) in the Bid Area will be given the opportunity to fill the new or vacant shift(s). The remaining shift(s) may be filled by the new or transferring employee. The Company may temporarily fill the position prior to the completion of the bid process. (See LOA #14, at page 1.)
4. ~~Employees on a Qualifying Period shall be allowed to bid, however, for the remainder of the Qualifying Period the Company may assign them where needed. Upon completion of the employee's Qualifying Period he shall assume the shift and days off which he was awarded on the shift bid.~~
5. An employee on an occupational injury or sick leave who wants to participate in a shift bid must provide a physician's statement verifying a return to work date that is within sixty (60) days of the effective date of the shift bid. Employees on other forms of leave similarly may bid provided they have a scheduled return date

Tentative Agreement

within sixty (60) days of the effective date of the shift bid. Employees who do not return within sixty (60) days of the bid's effective date will have their bids canceled and upon return will be subject to placement on a shift by the appropriate supervisor.

6. An employee transferring into a Bid Area will be allowed to participate in any shift re-bid in his new Bid Area if the closing date (the day the last person bids) of the shift re-bid is after the award/posting of the transfer. Employees awarded and accepting a transfer will be notified by the Company about current or upcoming Shift Bids that might be taking place in their new Bid area.
7. Employees scheduled to work more than four (4) or five (5) consecutive days (depending on a ten (10) or eight (8) hour shift) in a work week, or more than eight (8) or ten (10) hours in a twenty-four (24) hour period, during the transition to a new shift/days off scheduled will be paid straight time. Conversely, an employee who, because of a shift bid, is scheduled for less than a forty (40) hour week, will be allowed to work a shift(s) at straight time in order to obtain forty (40) hours of straight time.
8. Unless an electronic system is implemented or the parties in a Bid Area agree upon some other procedure, employees in a Bid Area will be assigned a bid time of not less than five (5) minutes on the day designated for a shift re-bid. Each employee shall either appear (in person or by phone) at the designated place to indicate his preference to the designated management representative or submit a written "pre-bid" to the designated management representative, prior to the shift re-bid. Written confirmation will be provided to employees submitting written pre-bids. The assigned bid times and bid office phone numbers will be posted with the Shift Bid at least thirty (30) days prior to the actual bid date and will have bid times separated in ten (10) minute intervals, unless mutually agreed to otherwise locally, to accommodate any new/transferring employees.
9. If during the awarding process an employee does not bid at his assigned slot the employee may bid on the remaining available slots at the time he notifies the appropriate office.
10. If the Company determines that it wishes to employ a technological bidding process that renders any of the terms of this Article obsolete, the Company and the Union will meet for the purpose of negotiating the implementation of the new technology.

L. Day And Shift Trades

1. Employees may agree among themselves, qualifications permitting, to:
 - a. Trade one or more of their days off with each other ("Day trade");

Tentative Agreement

- b. Exchange shifts on the same day, or another day (“shift trade”); or
 - c. Trade a shift to another employee without the other employee doing likewise (“one way trade”). Employees may trade away a maximum of thirty (30) “one-way” shifts in any six (6) month period, provided the employee works five (5) shifts in a calendar Month. Employees on a one way trade off will be allowed to use vacation time to make up for all hours on the unpaid trade day off.
 - d. Employees may trade for a maximum of four (4) additional shifts in any work week. Of these four (4) additional shifts, employees will be allowed to work a maximum of two (2) back-to-back (double) shifts per work week. (For example, an employee normally scheduled to work dayshift with Saturday and Sunday off may work additional trade shifts on Monday and Tuesday, but would not be eligible to work a trade shift on Wednesday; he would then be eligible to work additional trade shifts on Thursday and Friday.)
 - e. Employees working a trade day will be considered as working a normal shift and will be eligible for sick pay, occupational injury pay (to extend to the end of the employees following work week) vacation pay, planned and unplanned field trips, prior and following shift overtime, etc. (Note: employees on occupational injury leave may not trade shifts).
 - f. Employees on a trade day off will be eligible for overtime, pursuant to Article 17, on the remaining two (2) shifts on the day of the trade day off.
2. If one employee is on ten (10) hour shifts and the other employee is on eight (8) hour shifts, then both employees will work each other’s assigned shifts. The foregoing trades may result in an employee working more than four (4) days (in the case of ten (10) hour shifts) or five (5) days (in the case of eight (8) hour shifts) in a work week, and/or more than eight (8) or ten (10) hours, as the case may be, in a twenty-four (24) hour period. In all such cases those employees will be paid straight time.
3. Except in case of emergency, employees will provide reasonable written/electronic notice of day/shift trades. Employees who agree to make a specific trade should fill out and sign a form stating the dates and times of the trade. That form must then be submitted to the appropriate supervisor who shall then acknowledge receipt of it with his signature, even though his approval of the trade is not required. Each of the employees is then responsible for his own attendance on the date and times of the agreed trade. Upon reporting for work, a trading employee must give the appropriate supervisor the name of the employee whose place he is taking.

Tentative Agreement

4. However, an employee who orally arranges for a trade without filling out the appropriate form, and without obtaining a supervisor's written receipt, will be held responsible for his own attendance and that of the other employee agreeing to the trade.
5. When reporting for a trade the employee must report to the work area of the employee he traded with prior to the start of the shift and advise the supervisor on duty who he/she is trading with.

Tentative Agreement

Article 8 - Holidays

- A. Employees covered by this Agreement will observe the following holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, and two (2) floating holidays. The number of floating holidays shall be increased to four (4) effective January 1, 2011. Floating holidays shall be scheduled as follows:
1. During the year, subject to the needs of the service, the employee may request Floating Holiday(s) for a specific day or sequence of days if the employee has Floating Holiday(s) available. ~~Requests may not be submitted more than sixty (60) days in advance, but should be made at least seventy-two (72) hours in advance. An employee will not be denied a Floating Holiday(s) if open weeks exist as set forth in B.4 of Article 9. The employee will not be denied the request, if it is made no more than sixty (60) days and no less than eight (8) hours prior to the beginning of the shift or sequence of shifts in question if there are open weeks as set forth in B.4 of Article 9.~~ However if an open week does not exist, it shall be mutually determined by the employee's Steward and immediate Supervisor or designee as to whether or not the request is granted based on manpower available on the day requested. The Supervisor will have an answer to the employee's request by the end of the employee's work day on the day the request was made.

In cases of requests made less than eight (8) hours prior to the beginning of the shift or shifts being requested, an employee will not unreasonably be denied a Floating Holiday(s) if open weeks exist as set forth in B.4 of Article 9 and the needs of the service permit his release. Denied requests and the reason(s) for the denial will be documented upon the employee's request.
 2. Once a request has been properly made, the Floating Holiday(s) must be taken as scheduled unless agreed to otherwise by the employee and the supervisor.
 3. Floating Holidays cannot be scheduled on any other holiday.
- B. For holiday staffing purposes, all employees regularly scheduled for duty will be expected to report for work on their regularly scheduled shift. A volunteer list with the number of employees required per shift and bid work area will be manually or electronically posted by the Company in each bid work area at least fifteen (15) days before the holiday. Within seven (7) days of posting employees must electronically submit ~~indicate in writing~~ their preference to work by signing the volunteer list, or to receive the day off by not signing the volunteer list. Only those employees assigned to the bid work area will be eligible to sign its respective volunteer list. If there are insufficient volunteers to work the holiday, and reduced staffing is authorized, awarding of the day off will be in craft seniority order, beginning with the most senior employee, and will be posted seven (7) days before the holiday. If there are more volunteers to work than are needed for holiday staffing purposes, assigning of the day off will be in

Tentative Agreement

inverse craft seniority order, beginning with the most junior employee (including probationary employees). Employees scheduled to work a particular shift and ~~bid work~~ area on a holiday who sign up on the volunteer list desiring to work the holiday will have first preference to work their shift when there are more volunteers than needed. At each Station/Point the Company and the Local Union will mutually agree, in writing, to the rules and conditions regarding the proper administration of Holiday Staffing pursuant to this paragraph.

C. If an employee works on a holiday he will be paid time and one-half (1½) his hourly base rate of pay for all hours worked, in addition to eight (8) or ten (10) hours, depending on his regular schedule, of straight time holiday pay. Premium hours paid on a holiday will not be transferred onto the employee's overtime hours as defined in Article 17, Overtime. ~~All overtime worked on a holiday will be pursuant to Article 17.~~

D. All overtime worked on a holiday will be pursuant to Article 17.

~~D.E.~~ If a holiday falls on an employee's regularly scheduled work day and the employee is excused from working that day, the employee will receive eight (8) hours pay at the employee's hourly base rate of pay if the employee's regular schedule is eight (8) hours and ten (10) hours pay at the employee's hourly base rate of pay if the employee's regular schedule is ten (10) hours.

~~E.F.~~ If a holiday falls on an employee's regularly scheduled day off the following will occur:

1. At the employee's option, he will be given another day off immediately before or after the employee's regularly scheduled days off with eight (8) or ten (10) hours pay at the employee's base rate or,

At his option, an employee may elect to transfer his eight (8) or ten (10) hours of holiday pay into his sick bank, so long as such transfer will not exceed the maximum allowable accrued sick bank hours as provided in Article 11(C).

Article 9 - Vacations

A. Vacation Policy

1. All employees are eligible for paid vacation. The rate at which an employee accrues vacation (five (5) days per year, ten (10) days per year, fifteen (15) days per year, twenty (20) days per year, twenty-five (25) days per year, thirty (30) days per year, or thirty-five (35) days per year) is based on the employee's completed years of Company Service. The number of days an employee actually accrues, to be used in the next year, is based on the employee's accrual rate and the number of months the employee is actually paid in the current year.
2. Accrual Schedule - The number of vacation days an employee actually receives will be based on his/her accrual rate and the number of months the employee actually works in the prior year. The employee must be at work, on paid sick leave, on paid occupational injury leave, on vacation, or on a company offered leave of absence for more than one half of a month in order to be considered to have worked the month for vacation accrual purposes.

The number of vacation days earned based on the rate of accrual and months worked is shown in the chart below:

Months of Service	Maximum Regular Vacation						
	Prior to January 1	5 days	10 days	15 days	20 days	25 days	30 days 35 days

5-9 years	120 hours
10-16 years	160 hours
17-24 years	200 hours
25-29 years	240 hours
30 or more years (effective for accruals beginning 1/1/2003)	280 hours

4. Employees hired on or before the fifteenth (15th) of the month will receive vacation credit for that month. Those hired after the fifteenth (15th) of the month will receive vacation credit beginning the first day of the following month.
5. An employee, who is scheduled for vacation during a time when the employee would ordinarily receive a paycheck, may receive a paycheck or a payroll advance before the vacation by submitting a request, with department head approval to Payroll. Payroll needs a minimum of five (5) working days for processing advance paycheck requests.
6. Employees working on schedules other than five (5) day workweeks will be paid for vacation based on forty (40) hours per workweek. Employees are compensated for earned vacation in proportion to their normally scheduled workweek in effect at the time they take their vacations.

Example: A full-time employee working a four day, ten hour schedule will receive four days (forty (40) hours) of paid vacation.
7. An employee who leaves the Company either voluntarily or involuntarily will receive full payment for unused vacation time and unused deferred holidays credited from the previous year as well as vacation accrued in the year of separation, unless the employee is furloughed and elects to exercise his rights pursuant to Article 6(F).
 - a. When an employee leaves between the first and the fifteenth of the month, vacation credit will accrue up to the end of the previous month.
 - b. When an employee leaves between the sixteenth and the end of the month, vacation credit will accrue up to the end of the month in which the employee leaves.

Tentative Agreement

8. An employee who has not completed six (6) months of Company Service is not eligible for vacation pay upon termination.
9. An employee may carry over one (1) week of unused bided vacation into the succeeding year. The employee may carry over all other unused bided vacation into the succeeding year, subject to approval by the Department head or his designee. If the employee's unused vacation was caused by a request from the Company such vacation carry over will not be denied. An employee may also elect to transfer any unused vacation hours into their sick bank so long as such a transfer will not exceed the maximum allowable accrued sick bank hours as defined in Article 11-2 (c).

B. Vacation Bidding

1. Vacations will be bid by shifts in a Bid Area, except that in any Bid Area having less than 50 employees, vacations shall be bid by Bid Area. When mutually agreed between the Company and the local Union Business Agent vacations may be bid by groupings other than those listed herein. Provided that the Company will not unreasonably withhold agreement to such grouping as the local Business Agent advocates. It shall not be unreasonable for the Company to withhold agreement if the proposed grouping can reasonably be expected to materially affect the operation or any portion thereof.
2. In each vacation bidding group, the Department Head or Designee, will determine the total number of vacation weeks to be taken including regular earned vacation and deferred Holidays. For determining weeks to be bid, two (2) or less days will not be considered as a week.
3. If the total number of weeks to be taken is fifty (50) weeks or less, only one (1) person will be awarded a vacation in any given week (considered as a column).
4. If the total number is greater than fifty (50) weeks, a full column will be available for bidding each fifty (50) weeks, and if necessary, a partial column will be available for any remaining weeks in the last column. This method is used to avoid scheduling more people than necessary to be on vacation in any specific week.
5. Once a year, generally in early November, employees will bid for available vacation in the succeeding year based on adjusted Company Service Date. The Company will post notice of where and when employees will bid their initial and subsequent rounds of vacation. Employees will at that specific time, have three (3) ways to notify management of their bid preferences. ~~bid~~. They may show up in person, or telephone in their preference, or submit a written pre-bid to the designated management representative prior to any particular vacation bid round. Written confirmation will be provided to employees submitting written pre-bids.

Tentative Agreement

Once the entire vacation bidding process is completed the vacation listings will be posted no later than December 15th.

6. Employees may bid one (1) continuous vacation period, which may include all or any portion of the vacation to which he is entitled. However if the employee is eligible for less than ten (10) working days the employee may not split the available vacation. Once an employee is eligible for ten (10) working days or more, the employee may split the employee's vacation into separate periods of complete weeks and if a partial week remains, it will be taken in conjunction with one (1) of the employee's complete weeks.
7. Once each employee has had the opportunity to bid, additional rounds of bidding will be permitted following the same procedure used on the initial round.
8. If an employee does not bid at all, during any given round, the employee will not be given the opportunity to bid until the next round. However if an employee misses his bid time but calls or shows up to bid before that particular round is complete, he will be allowed to bid at that time from the remaining available weeks. ~~If the employee fails to bid, any open weeks may be assigned by the supervisor to grant the earned vacation after the entire bidding process is completed.~~
9. If an employee is a member of the Military Reserve and will attend a two (2) week training assignment during the bid year, the employee may set aside one (1) or two (2) weeks of vacation to be taken during the employee's military leave period.
10. An employee may also designate any or all ~~one (1) to fifteen (15)~~ days to be taken as vacation-day-at-a-time as outlined under "Vacation-Day-At-A-Time" procedures. (See below)
11. Although vacation weeks are bid using the Sunday date, the actual vacation begins following the scheduled days off in that week except that employees with Friday and Saturday or Saturday and Sunday will start their vacation in conjunction with their days off at the beginning of that week, unless the employee and the supervisor agree otherwise.
12. Employees working in Bid Areas that bid vacation by shifts will retain and carry with them their bidded vacation week(s) if they move to another shift or Bid Area during the calendar year.

C. VAC-DAT (Vacation-Day-At-A-Time)

1. An employee may elect to designate any or all of his ~~one (1) to fifteen (15)~~ vacation days to be taken a day at a time. The employee must designate the number of VAC-DAT days during the vacation bidding in November.

Tentative Agreement

2. During the year, subject to the needs of the service, the employee may request VAC-DAT for a specific day or sequence of days if the employee has VAC-DAT available. ~~Requests may not be submitted more than sixty (60) days in advance, but should be made at least seventy two (72) hours in advance. An employee will not be denied a VAC-DAT if open weeks columns exist as set forth in B.4 of this Article.~~ The employee will not be denied the request, if it is made no more than sixty (60) days and no less than eight (8) hours prior to the beginning of the shift or sequence of shifts in question if there are open weeks as set forth in B.4 of this Article. However if an open week does not exist, it shall be mutually determined by the employee's Steward and immediate Supervisor or Designee as to whether or not the request is granted based on manpower available the day requested. The Supervisor will have an answer to the employee's request by the end of the employee's work day on the day the request was made.

In cases of requests made less than eight (8) hours prior to the beginning of the shift or shifts being requested, an employee will not unreasonably be denied a VAC-DAT(s) if open weeks exist as set forth in B.4 of Article 9 and the needs of the service permit his release. Denied requests and the reason(s) for the denial will be documented upon the employee's request.

3. Once a request has been properly made and approved, the VAC-DAT must be taken as scheduled unless agreed to otherwise by the employee and the supervisor.
4. VAC-DAT cannot be scheduled on a holiday. Further, VAC-DAT cannot infringe on any existing rules regarding a holiday.
5. Employees having VAC-DAT remaining unused on October 1st of each year must declare one of the following options:
 - a. Elect to be paid for remaining VAC-DAT. Pay-out will be made on the first paycheck following November 1st of the current year, or
 - b. Use remaining VAC-DAT by December 31st. If this option is selected, but the VAC-DAT is not used by December 31st, the employee must choose to either carry the VAC-DAT into the following year as set forth in paragraph C(5)(c) below, or be paid on the second paycheck in January of the following year for all remaining VAC-DAT hours. This election must be made by midnight December 31st.
 - c. Elect to use remaining VAC-DAT in the following year as VAC-DAT. The maximum carry-over shall be forty (40) hours.
 - d. Elect to use remaining VAC-DAT in the following year as a week of regular vacation. The minimum carry over shall be one (1) day less than the employee's regular work week. The maximum carry-over shall be

Tentative Agreement

forty (40) hours. An employee who carries over less than a full week of VAC-DAT must complete the additional vacation week using the following year's VAC-DAT, by day/shift trade, by using unpaid leave, or by other means mutually acceptable to the employee and the Company.

- e. Elect to transfer any or all unused VAC-DAT hours into the employee's sick bank so long as such a transfer will not exceed the maximum allowable accrued sick bank hours as defined in Article 11. Employees who elect to transfer only a portion of their remaining VAC-DAT hours into their sick bank must also elect another option for all remaining hours.

Employees who fail to declare one of the above options by October 15 will be treated as having elected option (b) above.

- 6. An employee may split a VAC-DAT into one-half (1/2) of a day at a time. Upon approval from his supervisor the employee may also use VAC-DAT in hourly increments.

D. Changes To The Posted Schedule

- 1. Unless the employee(s) are allowed to retain their bidded vacation, additional columns or partial columns will be opened during the year to accommodate additional vacations because of an increase in complement (transfers) or changes in the work group which increase the number of weeks to be taken. In all other cases, any open week on the vacation schedule will be available for employees within the vacation bid group who wish to switch their scheduled weeks of vacation.
- 2. An employee must notify the supervisor at least two (2) weeks prior to the employee's scheduled vacation period or two weeks prior to the effective date of the vacation period the employee wished to select, whichever occurs first. The request must be made in writing. If the employee is the most senior employee to make such a request, the supervisor will approve the change and the posted vacation schedule will be revised accordingly.
- 3. Any vacation period vacated on the vacation schedule will remain open for seventy-two (72) hours prior to being awarded to the senior eligible bidder within the vacation group. In the Bid Areas where vacations are bid by shift, no vacation will be bid for seventy-two (72) hours after shift bid change. Then the senior eligible bidder on the shift or coming on the shift will bid first.
- 4. The Company will make available electronically the results of the vacation bid and update the vacation bid schedule throughout the year, upon the request of the Local Shop Steward.

E. Variable Use Options

Tentative Agreement

1. An employee may, during the annual benefits enrollment elect to contribute a portion of his vacation to be taken the following year to his 401(k) Savings Plan account in lieu of taking the vacation. Contributions shall be made in the first quarter of the following year, shall be treated as employee contributions, and are subject to Internal Revenue Code Section 401(a)(17) limits and to the provisions of paragraph E.3 below.
2. An employee may, during the annual benefits enrollment elect to use a portion of his vacation to be taken the following year to defer his/her monthly benefit costs in lieu of taking the vacation. The vacation value will be calculated using the employee's rate on January 1 of the following year, and applied in twelve (12) prorata portions to offset benefit costs each month of that year. In the event that the value of the vacation exceeds the benefit cost the excess will be included as a cash payment on the employee's regular paychecks. Should an employee leave the employ of the Company during a year in which he has used vacation to offset benefit costs, the amount remaining for the balance of the year will be included on his final paycheck.
3. The Company shall establish a deferred vacation plan for the purpose of providing severance benefits subject to the provisions of Article 9.E. and any applicable provisions of the Employee Retirement Income Security Act of 1974, as amended. Such plan shall provide for a single lump sum severance payment based upon the amount of deferred vacation benefits as set forth herein. An employee may defer up to ~~one (1)~~ three (3) weeks of his accrued vacation time ~~beginning at age fifty five (55) by so indicating not later than the annual vacation bidding. He may defer one (1) weeks of his vacation every for a maximum of ten (10) years of deferment, with a maximum of ten (10) weeks. An employee may irrevocably elect, by written notice to his manager or his designee, not to take one (1) weeks of the vacation time to which he would otherwise be entitled in the following year so indicating not later than the annual vacation bidding. The election to defer may be made no more than ten times (that is, for ten years) per employee.~~ Vacation credits result in an employee obtaining a severance payment upon ceasing employment with the Company for any reason. In addition, employees may obtain cash payments while continuing in employment with the Company in return for cancellation of vacation credits should such employee qualify for a hardship distribution under terms identical to those in effect at the time under the Company's 401(k) Savings Plan. Further, in the event of a prolonged medical disability where he has exhausted all of his sick leave, OJI leave and vacation which may be applicable, an employee may use his accumulated vacation credit to extend his time on full paid status on an hour for hour basis without regard to any differential in such employee's pay at the time of deferral and the time of any such redemption. The employee will not be allowed to receive such payment for any other reason prior to his termination. The accumulated vacation credit of a deceased employee shall be paid to such employee's beneficiary under the Company's 401(k) Savings Plan, or in the event

Tentative Agreement

no such beneficiary exists, under provisions consistent with the distribution of death benefits under the Company's 401(k) Savings Plan. Payments for vacation credits are equal to the aggregate sum of gross wages deferred as a result of the election to defer such vacation. Such amount is determined at the time of the deferral based on the highest base wages, including any applicable premiums, of the employee for the year following the November 20 on which the employee agreed to defer that specific vacation credit. The value of a vacation credit for a year is carried forward and aggregated with the value of all other vacation credits for an employee and the aggregate of such amounts is the amount of such employee's severance benefit. All payments for vacation credits are made from the general assets of the Company.

- ~~4. The maximum vacation contribution for any year for the above purposes shall be that amount which leaves two (2) full weeks of vacation remaining to be taken.~~

Tentative Agreement

Medical/Dental/Vision – Unless otherwise specified by the terms of the plan or required by law, current medical, dental and vision coverage shall be continued through the end of the month in which the LOA begins, on the same terms and conditions as apply to an active technician. Such coverage may be continued thereafter at the technician's expense at the same rate as the COBRA rate for the duration of the LOA subject to plan changes and availability. In the event of termination of employment while on LOA, such coverage may be continued at the technician's expense using COBRA eligibility at the COBRA rate for the COBRA period provided by law (currently eighteen (18) months) following the last day of the month in which termination of employment occurred, subject to plan changes and availability.
- b. Life and Accident Insurance – If on a paid status, current life and accident insurance coverage is unaffected. Unless otherwise specified by the terms of the plan or required by law, if on an unpaid status, the technicians may continue all or a portion of their current life and accident insurance coverage if so allowed by the individual life insurance company provider. The Company shall provide written notice regarding the technician's continuation responsibility and contact information for the life insurance provider at the time the employee commence an unpaid status. Continuation will be at the technician's expense and must be arranged by the technician directly with the individual insurance

Tentative Agreement

company. The premiums for life and accident insurance continuation will be based on conversion rates.

- c. Retirement – Unless otherwise required by law, vesting, eligibility and benefit accrual service credit in the Continental Airlines Retirement Plan (CARP) shall be governed by the terms of CARP.
- d. Passes – Based on Company Pass Policy and upon request and with the approval of their Department Head, technicians and their eligible family members on a leave of absence may use on-line travel privileges at their active employee pass classification. In the same manner, any buddy and vacation passes in their possession at the time the leave begins may be used as well.

9.5. Jury Duty

- a. The Company recognizes jury duty as a civic responsibility and will release employees for jury duty. Employees will not suffer any loss of pay for jury duty, allowing a reasonable amount of time for the employee to travel to/from his home for jury duty, if necessary. Further, employees will be pay protected (to extend to the end of the employee's following work week) for any trade days and/or shifts they were scheduled to work while on jury duty provided the trade days were scheduled prior to the employee's jury duty notification. Employees may retain payment received for jury service. An employee who gets a jury summons must submit a copy of it to the employee's supervisor.
- b. An employee on jury duty for three (3) days or more will be scheduled to work a day shift with Saturdays and Sundays off during jury service. If the employee is temporarily released from jury service for a calendar week or more, the employee's regular shift will be reinstated with Saturday and Sunday off. This provision shall not prevent local stations from establishing rules and guidelines that best satisfy their individual needs.
- c. When jury duty is completed, the employee must furnish his supervisor with a court-validated statement of attendance indicating the dates he served on jury duty.

Tentative Agreement

10.6. Witness Service

- a. An employee who appears as a witness in a legal proceeding at the request of the Company will be paid during witness service. Procedures will be the same as those for jury duty.
- b. An employee who serves as a witness in other legal proceedings will not be paid, unless he is compelled by subpoena to testify in such criminal proceedings.

11.8. Family and Medical Leave (FML)

- a. Employees may take up to ninety (90) days ~~twelve (12) weeks~~ of leave during any rolling twelve (12) month period. A rolling twelve (12) month period is determined by counting backwards twelve (12) full months from the first day of any FML. FML may be used for the birth or adoption of a child; placement of a child in foster care, to care for a minor child (son or daughter, including biological, adopted, foster, or stepchild, for whom the employee is a primary care giver, or such person over age eighteen (18) if that person is incapable of self care due to a verified physical or mental disability), spouse or parent (including a biological parent or a person who raised the employee as a child); with a serious health condition; or for their own serious health condition which makes them unable to perform their job. (An outline of employee rights and obligations under the Family and Medical Leave Act of 1993 is in Exhibit 1, which follows immediately at the end of this Article.)
- b. FML shall be determined pursuant to the technician's submission of an approved and acceptable medical certification.
- ~~b.c.~~ Benefits

- i. Medical/Dental/Vision – Current medical, dental and vision coverage may be continued for the duration of the FML, on the same terms and conditions as apply to an active technician. A technician who terminates employment while on FML may continue current medical, dental and vision coverage at the technician's expense using COBRA eligibility at the COBRA rate for the COBRA period (currently eighteen (18) months) following the last day of the month in which the termination of employment occurred, subject to plan changes and availability. For any period of Family and Medical Leave which is taken as unpaid leave, an employee must elect and submit a monthly payment for health care continuation within thirty-one (31) days of the Benefits Department notice of Family Leave continuation rights.

Tentative Agreement

- ii. Life and Accident Insurance – Unless otherwise specified by the terms of the plan or required by law, technicians on FML shall continue their core life insurance and may continue their optional life and accident insurance coverage at active employee rates during the FMLA.
- iii. Retirement –Vesting, eligibility and benefit accrual service credit in the Continental Airlines Retirement Plan (CARP) shall be governed by the terms of the CARP and, unless otherwise required by law, shall not accrue during a FML, unless the technician is on a paid status (i.e., paid sick leave or vacation).
- ~~d~~ e. Employees ordinarily must provide thirty (30) days advance notice of intent to take Family and Medical Leave when the leave is foreseeable.
- ~~e~~ d. Family/Medical Leave may be either paid or unpaid. Employees granted Family/ Medical Leave may elect to use any paid time off they may have (sick leave, vacation, deferred holidays, etc.) for their own serious health condition.
- ~~f~~ e. Family/Medical Leave used for the care or serious illness of an eligible family member may also be either paid or unpaid. Employees granted Family/ Medical Leave for eligible family members may elect to use paid time off such as vacation, and deferred holidays, but not sick leave unless required by law.
- g. An employee suffering from a serious health condition, a pregnant employee, or an employee giving birth may elect to exhaust paid sick leave prior to using FML. An employee may elect to exhaust unused vacation remaining in the current year prior to beginning FML for any of the purposes listed in paragraph E.11.a of this Article.
- h. Seniority – See Article 4 of this Agreement.

12. 9. Military Leaves of Absence and Veterans' Re-employment Rights

- a. Eligibility for Leave - A Military Leave will be granted to an employee in the following situations:
 - i. An employee who leaves the service of the Company to enlist, or who is inducted into the Armed Forces of the United States for a regular tour of duty.
 - ii. An employee who is a member of a reserve unit of the military

Tentative Agreement

including National Guard units ordered to active duty.

iii. An employee whose probationary period has not ended will be eligible for military leave.

- b. Duration of Leave - A military leave of absence will be granted for the duration of the employee's active service in the Armed Forces not to exceed five (5) years. The leave may continue for a maximum of 90 days from the date the employee is discharged from active service or from hospitalization continuing after discharge. The employee must apply for reinstatement within the 90 days. The maximum amount of military leave allowed is five (5) years or as soon after the expiration of five (5) years as the employee is able to obtain orders relieving him from active duty, (unless such five (5) year period has been extended by law.)

Exception: A reservist or guardsman who leaves his/her position for periods of training duty must apply for reinstatement within 31 calendar days after release.

- c. Procedure for Obtaining Military Leave

- i. An employee who receives notice of induction or orders to report for duty should immediately advise the employee's supervisor in writing of the effective date of the leave and the last day of work.
- ii. The supervisor will give the employee written approval.

- d. Effect of Military Leave on Employee Benefits

- i. Company Service, Pay Seniority and all other seniority will continue to accrue as if employment were not interrupted.
- ii. Employees will retain existing sick and occupational injury banks but will not accrue or acquire additional sick or occupational injury credit during the term of unpaid military leave.
- iii. Vacations an employee has earned but not taken before receiving notice of induction or call to active duty need not be taken prior to military leave, in which case they will be available to the employee upon his return to work. Alternatively, an employee who does not take vacations before his leave may choose to be paid for the unused vacation time.

- a) During active military service, vacations will continue to

Tentative Agreement

accrue in the same manner as if the employee had remained in active employment. ~~There will, however, be no carry over or accumulation of unused vacation credits from one year to the next nor will there be any remuneration for vacations not taken during the calendar year in which they are due because of the employee's absence on military leave.~~

b) Subject to Department Head approval, reinstated employees may use any vacation earned for that calendar year at anytime after thirty (30) days of active re-employment. The Department Head may waive this thirty (30) day restriction for the convenience of the Company, or may elect to pay the employee for his vacation.

~~iv. An employee on military leave, and eligible family members, are eligible for pass/reduced rate travel privileges while the employee is on active duty.~~

~~v. Credited service continues to accrue for benefit plan eligibility and vesting. For benefit coverage information during leave status, contact the Benefits Department.~~

iv. Benefits

a) Medical/Dental/Vision -The Company shall continue to provide medical, dental and vision coverage on the same terms conditions as apply to an active technician (i.e., as if the technician were continuously employed) for technician's on military leave through the end of the twelfth (12th) month following the month in which the military leave began, and shall reinstate health care coverage on the day following the termination of military leave. Following the expiration of that twelve (12) months, medical, dental and vision coverage may be continued at the technician's expense at the same rate as the COBRA rate for the duration of the military leave, subject to plan changes and availability. In the event of termination of employment while on military leave, such coverage may be continued at the technician's expense using COBRA eligibility at the COBRA rate for the COBRA period provided by law (currently eighteen (18) months) following the last day of the month in which termination of employment occurred, subject to plan changes and availability.

b) Life and Accident Insurance – Current life and accident insurance coverage shall be continued through the end of the month in which the military leave begins on the same terms and conditions as apply to an active technician. Thereafter, unless otherwise specified by the terms of the plan or required

Tentative Agreement

by law, technician's on military leave may continue all or a portion of their current life and accident insurance coverage if so allowed by the individual life insurance company provider. The Company shall provide written notice regarding the technician's continuation responsibility and contact information for the life insurance provider at the time the military leave is granted. Continuation will be at the technician's expense and must be arranged by the technician directly with the individual insurance company. The premiums for life and accident insurance continuation will be based on conversion rates.

c) Retirement – Vesting, eligibility, and benefit accrual service credit in the Continental Airlines Retirement Plan (CARP) shall be governed by the terms of the CARP and, unless otherwise required by law, shall continue for the duration of the military leave, provided that the technician returns to active service or is unable to return to active service as the direct result of injury or death incurred in the line of duty.

d) Passes – Technicians on military leave and their eligible family members shall have online pass privileges at their active employee pass classification for up to two (2) years, subject to the normal terms and conditions for personal use passes. Emergency pass provisions shall be made in case of family emergencies regardless of the length of the military leave.

e. Employment Rights and Reinstatement Qualifications

- i. After returning from a military leave of absence an employee who receives a general or honorable discharge will be eligible for re-employment. Unless Company circumstances have so changed as to make it impossible or unreasonable to do so, any employee granted a military leave will be reinstated under the following conditions:
 - a) He did not remain in the military service for more than five (5) years.
 - b) The position which was vacated was not temporary.
 - c) Military leave has not exceeded five (5) years or as soon after the expiration of five (5) years as the employee is able to obtain orders relieving him/her from active duty (unless such five (5) year period has been extended by law.)

Tentative Agreement

- d) He is still qualified and physically fit to perform the duties of the position vacated.

NOTE: If disabled while in the military to the extent of being unable to perform regular job duties, the employee will be entitled to work in another position which he can perform and, depending on the circumstances, may be paid his pre-disability base rate of pay even if that is more than the alternative job's regular rate of pay.

- e) Application for reinstatement is made within the allowable period as stated in this chapter.
- ii. Process of Reinstatement - The returning employee will be reinstated in his/her former position or one of like status and pay. The employee will be notified of the date to resume duties, the place where such duties will be performed and other necessary information.
- iii. Wage and Salary on Reinstatement - The wage or salary of the returning employee will be the amount which would have been received had the employee remained continuously in the position.

13. ~~10.~~ Military Leave for Reservists and Members of the National Guard

- a. Employees who are reservists or members of the National Guard must request a Military Leave of Absence for the period required to perform active duty for training or inactive duty training in the Armed Forces of the United States. The request does not have to be in writing.
- b. Employee Responsibilities:
 - i. The request must state the dates required for the leave if known. If a drill schedule is available for a prolonged period of time, only one request is necessary. A copy of the drill schedule must be attached.

Example: If drills are scheduled on the second weekend of each month, the request must state that beginning on (date), leave is requested each second weekend until (date).

- ii. Employees are expected to give as much notice as possible to their supervisors so that proper duty coverage can be arranged. If less than one (1) week's notice is given, employees may be

Tentative Agreement

asked to assist the Company by arranging to trade days and shifts or use their regular days off to the extent possible.

- iii. The reservist or National Guard member does not need to have written training orders at the time of the request.
- iv. After completing the military training or drill exercise, the reservist or National Guard member must report back to his regularly scheduled shift.
- v. This leave will normally be unpaid, but with advance approval from the employee's supervisor, vacation time may be used or his schedule may be adjusted.

Example: An employee's schedule may be adjusted to accommodate his normal day(s) off with the scheduled assigned military day(s). (i.e.: Employee normally has Wednesday and Thursday off, he is assigned military duty on Saturday and Sunday, employee may work Wednesday and Thursday and take off Saturday and Sunday)

c. Initial Active Duty Training

When an employee first joins the National Guard or Reserve, he/she usually undergoes initial active duty training (IADT). IADT is treated as regular active duty for re-employment rights purposes with the following exceptions:

- i. Unless the IADT is greater than one hundred and eighty (180) days, Aafter completing IADT, a Continental employee must re-apply within thirty-one (31) days, rather than ninety (90) days as in the case of regular duty.
- ii. The time spent in IADT does not count toward the five (5) year limitation on the regular active duty.

d. Management Responsibilities

- i. Management will grant a leave of absence to a reservist or National Guard member for the period required to perform active duty for training (drills) in the Armed Forces of the United States. Employees are expected to give as much notice as possible, however the timing, frequency and duration of the military training are determined by the military authorities.
- ii. Job rights are protected so long as the reservist or National Guard member receives orders for military training.

Tentative Agreement

- iii. Management will not deny a promotion to a Continental employee because of any obligation as a reservist or member of the National Guard.
- iv. Employees will not be required to use earned vacation time for their military training.
- v. The reservist or National Guard member will not lose Company Service time, bid or Pay Seniority as a result of the military absence.

Tentative Agreement

Exhibit 1 to Article 10 - Family/Medical Leave

Continental recognizes that during the time after the birth or adoption of a child, parents may need adjustment time or time to bond with the child. In other cases, an employee or a member of the employee's family may suffer with a serious health condition. Family/Medical leaves may be available to provide for these needs.

A. Eligibility

The Company provides up to 90 days of Family/Medical leave per year to eligible employees. The year is a rolling twelve-month period measured backward from the date an employee uses any Family/Medical leave. Employees are eligible to take Family/ Medical Leave if they have worked for the Company for at least one (1) year and for at least one thousand two hundred fifty (1,250) hours over the previous year.

B. Reasons For Taking Leave

1. To care for the employee's child after birth or after placement of a child with the employee for adoption or foster care, or
2. To care for the employee's spouse, child, or parent, who has a serious health condition, or
3. For a serious health condition that makes the employee unable to perform his/her job.
4. Because of a qualifying exigency arising out of the fact that the employee's spouse, child or parent is a military reservist or National Guard member on active duty (or notified of an impending call for active duty) in support of a contingency operation.

C. Job Benefits And Protection

1. For the duration of Family/Medical leave, the employee may continue benefit coverage at the active employee rate.
2. The use of Family/Medical leave will not result in the loss of any employment benefit that accrued prior to the start of the employee's leave. However, an employee will not accrue vacation time while he/she is on leave.

Tentative Agreement

D. Certification

If an employee requests leave because of a serious health condition, medical certification issued by the medical care provider of the employee or of the employee's ill family member will be required. Provisions of the Family/Medical leave policy will not be applicable to the absence if the certification is not provided.

E. Intermittent Leaves/Reduced Schedules

Employees may request an intermittent leave or reduced schedule when a physician certifies in writing that it is necessary for the employee to be absent on an intermittent basis, either for his/her own care or to care for a spouse, parent, son, or daughter. These leaves should be arranged to have the least operational disruption. The employee may be required to transfer into another position, work location or shift (with equal pay and benefits) if it will better accommodate the intermittent leave. For purposes of tracking intermittent leaves and reduced schedules only, eligible and qualified employees will be considered to have a Family/Medical leave "Bank" equal to five hundred twenty (520) hours per twelve (12) months.

F. How To Apply

At least 30-days notice is required for foreseeable leaves, including birth, adoption, placement of a foster child, or planned medical treatment. Applications for Family/Medical leave should be written and include:

1. The specific reason for the leave, and
2. The request dates, and
3. The date of birth or custody (if requesting for parental needs), and
4. Medical documentation (if requesting a leave for a serious health condition).

If thirty (30) days notice is not provided for foreseeable leaves, the leave may, if operationally required, be delayed until thirty (30) days after the date the written notice is received. In situations where the basis for the leave is not foreseeable or reasonable, notice should be provided when the need for the leave becomes apparent.

G. Documentation

Tentative Agreement

Medical documentation is needed to qualify for a Serious Health Condition Leave. Documentation must include certification by a physician, practitioner or provider of health services. When an intermittent or reduced schedule leave is required, the medical documentation must include a statement indicating that the medical needs can best be accommodated by such a leave.

H. Pay

Family/Medical Leave may be either paid or unpaid. Family/Medical Leave will be unpaid unless the employee elects to utilize any paid time off to which he is otherwise entitled.

I. Injured Servicemember Leave

An employee's request for leave to care for a seriously ill or injured servicemember shall be handled in accordance with the terms and conditions of the Family and Medical Leave Act.

Tentative Agreement

Article 11 - Sick Leave And Occupational Injury

A. Sick/Occupational Injury

Sick/occupational injury time is provided to allow the necessary time off to recuperate from illness or injury. An employee on sick or occupational injury leave may not accept employment or receive pay for services from any other organization without prior written approval from the employee's supervisor/manager and Human Resources.

B. Definitions

1. Sick Pay - is pay to an eligible employee who cannot perform his regular duties because of sickness (physical or psychological) or non-occupational injury, including maternity. Sick pay may also be utilized when an employee's presence would jeopardize the health of others because of exposure to a contagious disease. Sick pay does not cover time for routine physical examinations or dental check-ups. Examinations, tests and treatment for specific medical conditions are not considered to be "routine physical examinations." Pay during a period of sick absence will be based on the employee's base rate and scheduled hours.
2. Occupational Injury Pay - is pay to an eligible employee who is unable to work because of an injury on the job at Continental. The injury must be one that is covered by the applicable state Workers' Compensation law, and must be verified in writing by the treating physician. Pay during a period of occupational injury absence will be based on the employee's base rate of pay and scheduled hours. Pay received from the Company for an occupational injury will be at a rate equal to the employee's base rate of pay times his regularly scheduled hours, reduced by the amount of Worker's Compensation Temporary Disability Pay received by the employee from the Company's insurance carrier, or the state.
3. Worker's Compensation Temporary Disability Pay - is pay to an eligible employee unable to work because of an injury on the job at Continental.
 - a. The injury must be one that is covered by the applicable state Worker's Compensation law, and must be verified in writing by the treating physician. Pay during the period of occupational injury absence is based upon a seven-day work week, whether or not an employee is scheduled to work.
 - b. Payment for occupational injury by the Company's insurance carrier, or the state, is generally set at a percentage of the employee's average weekly wage. However, this rate and the maximum weekly payment may vary from state to state. Occupational injury pay (described above) is used to make up the difference between Worker's Compensation Temporary Disability Pay and the employee's base rate of pay for his scheduled

Tentative Agreement

straight time hours.

4. State Mandated Benefits - are disability income benefits required by law in certain states. State mandated benefits may include or require payments from an outside source.
 - a. In no event may an employee be entitled to State Mandated Benefits and Sick Pay or Occupational Injury Pay in excess of the employee's normal base rate times his scheduled straight time hours.
 - b. Adjustments to reimburse any excess compensation may be made by payroll deduction after the employee has received notification of the intent to do so. Repayment schedules will be discussed with the employee prior to implementation, and will not exceed ~~one third (1/3) of an employee's net wages~~ fifty dollars (\$50) per pay check except by express agreement with the employee. Such adjustments will not result in restoring hours to the employee's accrued occupational injury pay credits, but will result in hours being restored to an employee's sick leave bank if his sick leave bank was overdrawn. See paragraph F below.
5. Base Rate, as used in this Article, is an employee's basic hourly rate (appendix A) plus all premiums he normally receives.

C. Sick and Occupational Injury Accrual

Full time employees accrue eight (8) hours of Sick Pay credits and eight (8) hours of Occupational Injury Pay credits, for each month that they are in a paid status, up to a maximum of one thousand six hundred (1,600) hours for Sick Pay and a maximum of seven hundred (700) hours for Occupational Injury Pay. An employee whose single instance of illness or injury causes him to use more than two hundred and forty (240) hours of paid sick leave (i.e., a catastrophic long-term illness or injury) will upon his return to work replenish his sick bank at a rate of twelve (12) hours per month until the bank is restored to the amount he had the day before the illness or injury began. Thereafter he will resume accruing at the regular amount of eight (8) hours per month.

D. Commencement and Payment of Paid Sick Time

Sick time is paid based on the number of hours in the employee's regular work schedule. Pay will be at the employee's base rate until his/her sick bank has been exhausted.

E. Commencement of Occupational Injury Pay

Occupational Injury Pay is based on the number of hours in the employee's regular work schedule. Occupational Injury Pay cannot commence until the employer's First Report of Injury (State Form) has been completed and a copy has been submitted to Payroll.

Tentative Agreement

F. Combining Sick Pay and Occupational Injury Pay

Employees may not use Occupational Injury Pay to extend paid sick time. However, if an employee exhausts Occupational Injury Pay, available Sick Pay may be used to extend Occupational Injury Pay. Only those hours needed to make the employee whole will be deducted from his sick leave bank if used to extend an occupational injury. "Those hours needed to make the employee whole" as used in this Article shall mean a payment in the amount that would ensure that an employee is paid an amount equal to his normal full wage compensation (his hourly base rate of pay times his regular scheduled work hours).

G. Exhaustion of Sick Pay/Occupational Injury Pay

When an employee exhausts all paid sick/occupational injury time, the employee will be placed on an unpaid Medical Leave of Absence, as defined in Article 10(E)(2). An employee will not accrue Sick Pay or Occupational Injury Pay while on an unpaid Medical Leave of Absence.

H. Physical Examinations

Subject to applicable state law:

1. Continental may require an employee to submit to a physical examination by a Company approved physician. This may be requested to verify the employee's illness, disability, occupational injury, fitness for duty or release to duty. The cost of this examination will be borne at Company expense. In addition, an employee will be pay protected for time lost because of said examination if he is at work.
2. If the employee does not agree with the findings of the Company doctor, he may be examined by a doctor of his own choosing. Should a dispute arise between the findings of the two doctors concerning the employee's physical ability to return to work, after either an occupational injury or use of sick leave, a third doctor, selected by mutual agreement by the first two doctors will make a third examination, and the decision of the third doctor will be determinative. The expense of the third doctor shall be borne by the Company.

I. Travel While on Sick or Occupational Injury Status

Employees on sick or occupational injury status may not use their own or another employee's pass privileges or reduced rate travel for personal travel unless written permission is secured in advance of the travel from the appropriate supervisor or Human Resources Manager, which permission will not be unreasonably withheld. Eligible family members (and buddies if accompanied by the employee's spouse or other eligible family pass rider, when accompaniment is required) are permitted to travel while the employee is in a paid status. To allow time for family members to return from trips in progress or be notified to make alternate travel arrangements, eligible family members may continue to travel for 30 days from the date an employee's status changes to

Tentative Agreement

"unpaid" (i.e., an employee has exhausted Sick/Occupational Injury Pay).

J. Occupational Injury Pay

1. Eligibility

To be eligible to receive Occupational Injury Pay, an employee's disability must be covered by the state Worker's Compensation laws applicable to the employee's base, station or work site. The employee must also provide a medical doctor's written verification of disability by occupational injury.

2. Limited Duty

~~To the extent work needs to be performed,~~ Limited Duty assignments will be available for employees who are unable to return to full duty after an on-the-job injury but are capable of performing work with some physical restrictions. An employee who has applied, and been qualified, for Long Term Disability benefits provided under Company-sponsored plan(s) will not be forced to perform limited duty assignments.

3. Payments

Worker's Compensation Temporary Disability payments will be made directly to the employee by the Worker's Compensation carrier (or the state) in the amount equal to the statutory requirements. Payments will be made to the employee, by the Company, in the amount calculated to be the difference between the employee's regular base pay and the statutory payment amount, until such time as the employee's Occupational Injury Pay and (if elected) Sick Pay are exhausted. Hours will be deducted from the employee's sick bank, if elected, on an hour for hour basis rounded off to the nearest hour. Only those hours needed to make the employee whole will be deducted from his bank. After the employee has returned to work and occupational injury payments have ceased (from both the Company and the third party), reconciliation will be performed to determine that the employee was appropriately paid during this period. Final adjustments will then be made. If it is established that the employee was overpaid, arrangements will be made with the employee for prompt recovery. A pay inquiry will be initiated if, after all adjustments have been made, the employee believes that he was paid improperly.

4. Denial/Investigation of Worker's Compensation Claims

Occupational Injury payments will not be made if there is an unresolved controversy as to whether the injury is compensable or if the claim is denied. An employee who is denied Occupational Injury Pay may use other benefits such as sick pay or vacation pay. If an injury is later deemed eligible for Worker's Compensation Temporary Disability Pay, payments will be retroactive and the

Tentative Agreement

necessary adjustments/changes will be made.

K. Limited Duty

1. Eligibility

- a. Limited Duty assignments are available only for employees who sustain occupational injuries and are temporarily unable to perform their full duties.
- b. The employee must provide a treating and/or consulting physician's statement stating that the employee's physical limitations are not expected to restrict him from regular work duties for more than ninety (90) days.
- c. ~~Work of economic benefit to the Company must be available. The~~ Company will make work available in a position covered by this Agreement at the employee's Station/Point.
- d. The employee must be capable of performing the work that is available within the doctor's written restrictions.

2. Limited Duty Requirements

- a. Limited Duty assignments may last as long as ninety (90) days. In addition, thirty (30) day extensions may be allowed with the treating and/or consulting doctor's approval and mutual agreement between the Company and the Union.
- b. An employee whose restrictions are not removed and is not granted an extension will be returned to either Sick Pay, Occupational Injury Pay or unpaid Medical Leave status.
- c. Employee participation in Limited Duty is mandatory, if the treating and/or consulting physician releases the employee for Limited Duty. ~~work is available within the identified restrictions, and the Company directs the employee to do Limited Duty. The Company will offer Limited Duty assignments in all cases to the extent that appropriate work is available.~~
- d. Once the treating and/or consulting physician issues a full release, an employee on Limited Duty must return to his normal job duties immediately.
- e. An employee who has incurred a permanent disability will receive consideration for return to duty in accordance with the Company's policies regarding reasonable accommodation for handicapped individuals. That is,

Tentative Agreement

an employee who has suffered an occupational injury and has medical restrictions defined as permanent and stationary, but remains unable to perform his normal duties, will be given consideration for other work that does not exceed the restrictions, to the extent it is available and he is qualified to perform such work. Once a limitation defined as permanent and stationary is recognized by the Worker's Compensation Board, that determination cannot be changed unless the Company elects in its discretion to accept the diagnosis of another physician.

- f. An employee on Limited Duty will only be assigned work at his Station/Point (including corporate offices located at or near the Station/Point). Employees will not be given Limited Duty assignments which require supervision of employees covered by this Agreement.
- g. An employee assigned Limited Duty will be paid at his regular base rate as used in this Article, even if the Company would otherwise pay a lower rate for the assigned work.

3. Effects on Employee Benefits/Privileges

a. Seniority

An employee on a Limited Duty assignment will continue to retain and accrue Seniority for all purposes.

b. Overtime

Overtime is not available to employees on Limited Duty assignments.

c. Trade Days

An employee on Limited Duty assignment is not permitted to use trade privileges.

d. Occupational Injury Pay

Employees on Limited Duty assignments are paid their regular rate. No deductions are made from their Sick or Occupational Injury Pay for hours actually worked while on the assignment.

e. Attendance

Employees will be held accountable for attendance and tardiness while on Limited Duty assignments, except in circumstances where the employee's attending physician requires the employee to be absent or tardy for treatment or therapy.

Tentative Agreement

f. Travel Privileges

Pass and reduced-rate travel is available to employees and their eligible dependents while employees are on Limited Duty assignments.

g. Vacation, Sick Pay and Occupational Injury Pay Accruals

During a Limited Duty assignment, accruals will be credited in the same manner as if the employee were performing his regular assignment.

h. Transfers

Transfers are not available to employees on Limited Duty.

L. Non-Critical Illness in the Family

If an employee's spouse or dependent child is injured, or becomes ill, or is hospitalized so that the employee is unable to report for work, the employee will be entitled to use up to ~~three (3)~~ six (6) working days of personal sick leave. Overtime rates shall be computed on an actual minute basis adjusted to the nearest one tenth (1/10th) of an hour, with a minimum of one (1) hour overtime at the applicable rate. When computing overtime, the employee's straight time compensation will include the base rate, any licenses, premiums, and differentials that the employee normally receives for each regularly scheduled hour, during the employee's regularly assigned shift.
- C. 1. Employees on an eight (8) hour day shall be paid an hourly rate of time and one-half (1½X), based on the employee's regular straight time compensation for:

Tentative Agreement

- a. The first four (4) hours worked after the employee's regularly scheduled shift, ~~provided that the employee has actually worked or has been credited as having worked his regularly scheduled shift.~~
 - b. The first eight hours worked on either of the employee's regularly scheduled days off, ~~provided that the employee has been credited with forty (40) hours in his seven (7) day week.~~
2. Employee on a ten (10) hour day shall be paid time and one-half (1½X) for:
 - a. The first two (2) hours worked after the employee's regular shift, ~~provided that the employee has actually worked or has been credited as having worked his regularly scheduled shift.~~
 - b. The first ten (10) hours worked on one of the employee's three (3) regularly scheduled days off, ~~provided that the employee has been credited with forty (40) hours in his seven (7) day week.~~
3. Employees on an eight (8) hour day shall be paid an hourly rate of double time (2X), based on the employee's regular straight time compensation for:
 - a. All time worked in excess of twelve (12) hours on a regularly scheduled work day, ~~provided that the employee has actually worked or has been credited as having worked his regularly scheduled shift.~~
 - b. All hours worked in excess of the first eight (8) hours worked on the employee's two (2) regularly scheduled days off, ~~provided that the employee has been credited with forty (40) hours in his seven (7) day week.~~
 - c. All time worked on the employee's second day off, provided that the employee has worked, or has been compensated for, four (4) hours or more on his first day off, ~~and provided further that the employee has been credited with forty (40) hours in his seven (7) day week.~~
4. Employees on a ten (10) hour day shall be paid double time (2X), based on the employee's regular straight time compensation for:
 - a. All time worked in excess of twelve (12) hours on a regularly scheduled work day, ~~provided that the employee has actually worked or has been credited as having worked his regularly scheduled shift.~~
 - b. All hours worked in excess of the first ten (10) hours worked on the employee's three (3) regularly scheduled days off, ~~provided that the~~

Tentative Agreement

~~employee has been credited with forty (40) hours in his seven (7) day week.~~

- c. All time worked on the employee's second or third day off, provided that the employee has worked, or been compensated for, four (4) or more hours on one of his previous days off, ~~and provided further that the employee has been credited with forty (40) hours in his seven (7) day week.~~

~~5. Credited Hours as used in this Article shall mean all hours worked (including Company Business, training, field trips and trade days worked) either at straight time or overtime rates as well as those hours paid but not worked on a holiday (fixed, floating or deferred) and those hours which produce an "overlap" on trade days. Such overlap will be credited to a maximum of two and one half (2½) hours for each occurrence.~~

- D. When an employee works overtime in conjunction with his regular shift, not related to job continuation, he shall be entitled to a minimum of four (4) hours overtime pay, except that when overtime is required to cover staffing outages (vacation, sick, leaves of absence, etc.) he shall be entitled to work the full shift being covered, whether the shift is eight (8) or ten (10) hours. When the two shifts overlap, the overlap time will remain part of the employee's regular shift. When an employee is off duty and is called in to work overtime he shall be entitled to a minimum of eight (8) hours of overtime pay unless the overtime shift being covered overlaps with the employee's regular shift, in which case the overlap time will remain part of the employee's regular shift. Employees who are called in late for overtime will be pay protected at the applicable overtime rate for the entire shift, either eight (8) or ten (10) hours whichever is applicable, if the late overtime call out causes the employee to miss any part of the shift. (See, LOA #7, at page 1.)
- E. Employees will be given a break period of ten (10) minutes every two (2) hours, and if working overtime in conjunction with a regular or trade shift, will be given a ten (10) minute break between the shift worked and the overtime assignment. Employees required to work overtime of two (2) continuous hours or more, either before or after a regular or trade shift hours, shall be afforded an additional thirty (30) minute paid meal period, or pay in lieu thereof. For each additional four (4) hour period of continuous overtime service an additional thirty (30) minute paid meal period, or pay in lieu thereof, will be allowed within the following hour. Time for such meal periods will not break the continuous service period. When not afforded the aforementioned meal period(s) an employee may, subject to the needs of the service, forgo any additional pay and be allowed to leave work early with pay at the applicable overtime rate.
- F. When possible the Company shall give at least four (4) hours advance notice of contemplated overtime.
- G. When an employee has worked more than one (1) shift (eight (8) or ten (10) hours, whichever is applicable) in the previous twelve (12) hours and his duties are such that he will not have at least a six (6) hour rest period prior to the start of his next scheduled

Tentative Agreement

shift, it being understood that all regular shifts and scheduled overtime assignments to be worked shall be considered the employee's "next scheduled shift" for purposes of this paragraph, he shall be afforded an eight (8) hour rest period prior to the commencement of his next scheduled shift. If an employee's preceding work assignment terminates so that there will be less than six (6) hours prior to the commencement of his next scheduled shift, one of the following will occur:

1. The employee and his supervisor may agree that he will report to his next work assignment on time and be compensated, for all hours worked, at the applicable overtime rate, it being understood failure to receive a documented answer from the employee's supervisor will automatically require the employee to exercise G.2 below, or
2. If the parties do not agree that he will report to his next work assignment on time, he will take an eight (8) hour rest period with no loss of pay. If the rest period is such that it extends half way or more through the employee's next regularly scheduled shift, excluding lunch, (four (4) or five (5) hours, whichever is applicable), the employee may remain at home and be pay protected for the entire shift.

H. The following procedures will be followed in the administration of overtime:

1. On January 1st of each year the overtime hours of each employee will be reduced to zero (0), and in each Bid Area a list of the employees in seniority order will be posted. This will constitute the initial overtime call sheet.
2. For each Bid Area subject to these rules, the Company will maintain and make available upon request, accurate daily records of all overtime accepted, worked and all overtime refused. An overtime hour for the purposes of overtime equalization, shall be computed and recorded as the overtime hour accepted, worked or refused, unless spelled out differently herein, multiplied by the amount of overtime compensation.
3. Employees transferring by bid, being recalled, displacing into, returning from Leave of Absence of more than forty-five (45) days, returning from a temporary assignment of more than three (3) weeks, will be given the number of overtime hours they have obtained in the current calendar year from their previous work location(s). New hires entering a Bid Area will not be eligible for overtime during their probation. After probation they will be given the highest number of overtime hours in the Bid Area.
4. A standard overtime call sheet or its electronic equivalent will be maintained for each Bid Area subject to these rules. To be eligible to work overtime employees must sign up correctly in ink on the overtime call sheet for their Bid Area, initialing any subsequent changes in ink. The sign up will include the employee's name, regular shift, the shift(s) for which the employee desires to work overtime,

Tentative Agreement

and a phone number(s) at which the employee can be contacted if not at work when the callout is being made. All entries in the overtime call sheet must be accurate and legible.

5. If for continuity purposes it is deemed by management that an employee should stay and complete his assigned job, and the job can be anticipated to be completed within three (3) hours, then the employee performing that job may be requested to do so without regard to seniority or overtime hours charged. This will be known as "job continuation." Whenever the Company has a need to utilize this provision a "Job Continuation" request shall be made available for review by the Local Union. The Company shall keep an electronic record of all "Job Continuation" worked at all stations and make such records available for review, by the Union, for a minimum of eighteen (18) months from the date of each "Job Continuation" occurrence.
6. If the need for overtime not requiring continuity arises in a particular Bid Area in conjunction with a shift in progress, and the need is for four (4) hours, the overtime will be offered to those employees who are then working on the shift in question and who have signed the call book. The person with the least amount of overtime hours will be offered first, and the remaining need will be met by offering the overtime to the employees in the Bid Area on shift in ascending order of their overtime hours. If two or more employees have the same number of overtime hours charged the offering will be made in Craft seniority order.
 - a. Except as provided in paragraph 6 above, all other overtime will be offered to employees using the call sheet. In making an overtime callout, the Company will contact the employee on the overtime call sheet who can cover the shift and has the least amount of overtime first, next least second, etc. Employees will be considered able to cover the shift, as stated above, so long as their normal shift starting/ending time and the start/end time of the overtime request does not exceed one hundred and fifty (150) minutes, provided that the employee must report to the work area of the normal ~~second~~ shift at the start time of the normal ~~second~~ shift rather than remaining in the work area of the overtime ~~first~~ shift.
 - b. If there are insufficient employees on the call sheet to fill the overtime requirement, the Company will solicit volunteers from the work area where the overtime originated in the Bid Area without regard to seniority or overtime hours charged, and if there are still insufficient employees to fill the overtime requirement, may allow qualified employees from other Bid Areas to work the overtime.
 - c. If there still exists a need for overtime, employees not working the shift but who are regularly assigned to the Bid Area, may be assigned the overtime in reverse order of seniority.

Tentative Agreement

- d. Employees will not be required to work overtime against their wishes, except in emergencies. The term emergency as used in this Article shall mean “Acts of God,” “Acts of War” (as declared by Congress), national emergency, natural disaster, revocation of the Company’s operating certificate, the grounding of a significant portion of the Company’s fleet, a shutdown of any substantial portion of the air transportation system, danger posed by the elements of weather or any other unexpected circumstance posing significant danger to persons, property or the business. “Significant danger” does not mean the typical circumstances encountered in normal daily operations. In such cases, no employee will be required to work an overtime assignment which would require him to work a total of more than twelve (12) hours for an employee normally scheduled for eight (8) hour shifts, or fourteen (14) hours for an employee who normally works a ten (10) hour shift, in any twenty-four (24) hour period.
- 7. When the need arises to call employees for overtime who are not on duty, the Company will ~~contact a shop steward or his designee at the time of the callout, and~~ begin contacting the employee(s) by phone, using a Company land line, at the number(s) listed by the employee on the call sheet. If the Company is unable to contact the employee in person at the phone number(s) listed, ~~the Union Steward will then re-dial the number(s) himself verifying the response that was indicated by the Management representative, and~~ the employee will be bypassed.
- I. The overtime provisions of this Article shall not apply where the overtime is worked due to a change in shifts through the exercise of seniority by employees or due to an approved exchange of shifts and/or day trades done for the convenience of the employees.
- J. At each Station/Point the Company and the Local Union will mutually agree, in writing, to the rules and conditions regarding the proper administration of overtime pursuant to this Article.
- K. An employee who is bypassed in violation of the overtime distribution procedures set forth in this Article will be treated as follows:
 - 1. ~~If the Company has not made all reasonable efforts to contact the shop steward or his designee as provided in paragraph H(7) above, or if~~ If the bypass is a deliberate and intentional act, the employee will be paid and charged the applicable overtime rate for all hours missed by that particular overtime opportunity. For purposes of this paragraph, a bypass that results from repeated instances of administrative and/or clerical errors shall be deemed to be intentional.
 - 2. In all other cases, the employee shall be offered an opportunity to work an amount of overtime equal to the amount of overtime missed, at the overtime rate at which

Tentative Agreement

he was bypassed. The employee will be able to work the overtime at his discretion in any work area in his bid area.

Tentative Agreement

If a steward is reasonably requested by management to delay an investigation of a grievance because of immediate work requirements, such steward, if practical, shall cooperate with the request.
 - 2. Time spent in handling grievances during the steward's regular working hours shall be considered hours worked for all purposes. It is understood that if a steward voluntarily chooses to handle a grievance on other than Company time, he may not claim overtime pay for the non-Company time spent handling such grievance. This provision, however, shall not be construed as affecting an employee's overtime pay for time spent handling grievances while at work on an authorized overtime opportunity.
- M. Effective upon signing of this Agreement, the Company will assume the cost of one hundred and seventy-three hours (173.0) of straight pay time per month for each location where two hundred and fifty (250) or more actively employed covered employees are

Tentative Agreement

Article 19 - Grievance Procedure

A. Grievances Involving Interpretation Or Application Of The Agreement

In the event of a grievance arising over the interpretation or application of this Agreement or in the event of disciplinary action, not involving loss of pay, the following procedure shall be followed:

1. The aggrieved employee will first present the complaint to his supervisor for discussion and possible solution within thirty (30) days after the employee or his representative could reasonably have knowledge of the incident upon which the complaint is based. During this discussion, the employee will have the right, but not the obligation, to be represented by his shop steward or Local Business Representative. An employee who is to be questioned by Company Representatives in the investigation of an incident or accident which may result in disciplinary action, will be informed of his right to have a Union Representative present before such questioning begins. The Company shall be required to document and have the employee sign for any refusal of such Union representation. It is understood and agreed that decisions made at the first step of the grievance procedure by the supervisor, employee and/or his representative shall not constitute a precedent of any kind unless otherwise agreed to by the Union and the Company.
2. If the complaint cannot be resolved through a discussion, the grievance shall be reduced to writing by the employee or his representative, signed by the employee or his representative, and presented to his supervisor within ten (10) calendar days after the date of the discussion described in paragraph A.1 above.
3. The grievance will be answered in writing by the supervisor, who will send a copy to the grievant, the shop steward and the Union Representative, within ten (10) calendar days after he receives the written grievance.
4. If the decision of the supervisor is not satisfactory, the employee or his Union Representative may appeal the grievance directly to the regional Director or his designee, provided such appeal is presented in writing within ten (10) calendar days after the written decision of the supervisor has been presented to the grievant, the shop steward, and the Union Representative.
5. The regional Director or his designee will meet to hear the grievance(s) within ten (10) calendar days following the receipt of the written appeal. The grievant, the shop steward and the Local Union business agent shall be entitled to attend this meeting, and shall be allowed a reasonable opportunity to present relevant testimony and information. The regional Director or his designee shall issue his decision in writing within ten (10) days after the presentation of such relevant testimony and information.

2. In those instances where the Company discharges or disciplines a non-probationary employee to the extent of loss of pay, such disciplinary action will not be imposed until a fact/finding meeting is held between the employee's supervisor, and if needed, other Company designee, the employee, and his steward. Nothing shall preclude the Company's right to suspend any employee without loss of pay pending such meeting. The purpose of such meeting is to interview pertinent witnesses, establish pertinent facts and determine any possible solution, it being understood and agreed that decisions at such level shall not constitute a precedent. The Company representative involved will, within ten (10) calendar days after such meeting, render a decision in writing to the employee, unless further investigation is required, in which case the Company will notify the affected employee and the Union of the reasons for the delay. The affected employee shall remain in a paid status until such time as a decision is rendered.
3. If the decision of the Company's representative is not acceptable to the Union, the decision may be appealed by the Union to the System Board of Adjustment within fourteen (14) calendar days after receipt, by serving written notice to Teamsters Local Union No 19 (~~Grapevine office~~) with a copy directed to the Vice President of Maintenance at the Company's Administrative Office.
4. Notwithstanding any of the provisions of this Article, probationary employees are not entitled to file grievances under this contract regarding discipline or discharges, nor shall such employees be entitled to challenge discipline or discharges taken against them under this Agreement. The System Board's findings and decisions shall be final and binding upon the Teamsters - Airline Division, the Company, and the individual employee or employees to such dispute.
5. In the event the Union appeals the disciplinary action to arbitration the Company and the Union shall attempt to agree on a mutually acceptable impartial arbitrator. If the parties are unable to agree on an arbitrator they shall select an arbitrator as provided in Article 20, Board of Arbitration.

The parties agree to use their mutual best efforts to minimize the cost and the operational disruption potentially created by this provision. In System Board cases where testimony is cumulative (merely

Tentative Agreement

duplicating the testimony of other witnesses), or is otherwise not essential to the case, such evidence may be presented by sworn statement(s).

5. All time limits will be complied with by the Company, the employee(s), and the Union. If the Company does not comply with the time limits, the grievance will be deemed automatically appealed to the next step. 6. It is agreed by the parties hereto that the periods of time for hearings, decisions, and appeals established in this section shall be considered as maximum periods and that when hearings, decisions, and appeals can be handled in a period of less than the maximum time stipulated, every effort will be made so as to expedite such cases.
7. The Company recognizes the right of the Union to file a group grievance when the issue is common and identical to those employees in the group.
8. In the event of permanent change of the parties responsible for answering grievances at any step of this grievance procedure, the Company will notify the Union as soon as possible.
9. The Union, or its representative, and/or the Grievant shall have access to the Grievant's personnel file for review in any discipline or discharge case, and in any other case where the employee provides written authorization for release of such information. When requested by either the Company representative or the Union representative, the System Board shall summon any witness(es) who are employed by the Company and are deemed necessary to the dispute by the System Board.

E. Disclosure

Both parties shall agree to a discovery process and they shall be compelled to disclose, to each other, all data/documents and the names of the witnesses to be presented no later than ten (10) calendar days prior to the actual date of the System Board of Adjustment and/or Arbitration. Any data/documents or witnesses given to the other within ten (10) calendar days of the System Board and/or Arbitration must be disclosed as soon as possible but in all cases no less than forty-eight (48) hours prior to the actual System Board of Adjustment and/or Arbitration. If either party receives a late document or witness list it shall have the

Re: 401 (k) Plan – Company Match

Dear ~~Mr. Treichler~~Captain Bourne:

This will confirm our understanding regarding the mechanic group's participation in the 401 (k) Plan.

We have agreed that employees covered by the Continental/Teamsters collective bargaining agreement will, effective January 1, 2009~~3~~, participate in the 401 (k) Plan on the following terms:

In lieu of other employer matching contributions, the employer shall contribute quarterly, an annual amount equal to:

Employees who have completed less than 5 years of service – Company will match the greater of up to \$300 dollar for dollar or 25% of the employee's pre-tax contributions up to 3% of eligible pay (as limited by Section 401(a)(17) of the Internal Revenue Code). That is, the first 3% of pay is eligible for the match.

Employees who have completed 5 or more years of service, but less than 10 – Company will match the greater of up to \$300 dollar for dollar or 25% of the employee's pre-tax contributions up to 4% of eligible pay (as limited by Section 401(a)(17) of the Internal Revenue Code). That is, the first 4% of pay is eligible for the match. For example, an employee earning \$35,000 annually who contributes 4% (\$1,400) will receive 25% of his \$1,400 contribution (\$350) as a Company matching contribution.

Employees who have completed 10 or more years of service, but less than 15 – Company will match the greater of up to \$300 dollar for dollar or 50% of the employee's pre-tax contributions up to 4% of eligible pay (as limited by Section 401(a)(17) of the Internal Revenue Code). That is, the first 4% of pay is eligible for the match. For example, an employee earning \$40,000 annually who

Tentative Agreement

contributes 4% (\$1,600) will receive 50% of his \$1,600 contribution (\$800) as a Company matching contribution.

Employees who have completed 15 or more years of service – Company will match the greater of up to \$300 dollar for dollar or 50% of the employee's pre-tax contributions up to 6% of eligible pay (as limited by Section 401(a)(17) of the Internal Revenue Code). That is, the first 6% of pay is eligible for the match. For example, an employee earning \$45,000 annually who contributes 6% (\$2,700) will receive 50% of his \$2,700 contribution (\$1,350) as a Company matching contribution.

We have agreed that GSE employees shall report through and be responsible to Technical Operations management in such structure as the Company may from time to time establish.

Re: Heavy Check Work

Dear Mr. Treichler:

This will confirm our understanding concerning job opportunities for Technical Operations employees and the balancing of structural heavy airframe maintenance ("Heavy Check") lines.

We have agreed that at least one (1) line of new-generation B-737 Heavy Check work will be performed in-house by covered employees, without regard to whether such work may be contracted out under the terms of Article 1 of the collective bargaining agreement.

In a continuing effort to keep employees informed about matters of importance to them, the parties will develop a Letter of Agreement describing the circumstances and timing of the discontinuance of Heavy Check lines when work load reductions occur due to the exiting of aircraft from the Company's fleet, or when the operation otherwise no longer requires such Heavy Check work (e.g., the grounding of a fleet, etc.) at a level that supports a full line(s) of work. The LOA will also describe the rights of employees affected by such workload reductions and their opportunities to pursue replacement job opportunities within the system.

When work load reductions occur due to the discontinuance of Heavy Check lines (resulting from the exiting of aircraft from the Company's fleet, or when the operation otherwise no longer requires such Heavy Check work) Heavy Check replacement work will be provided for the employees who would have been performing the Heavy Checks.

Re: Overtime Callout

Dear Mr. Treichler:

This will confirm our understanding concerning proposed changes to Articles 17(A)(4) and 17(D) of the collective bargaining agreement as they apply to overtime callout eligibility and overtime callout's relationship to staffing outages (vacation, sick leave, leaves of absence, etc.), and minimum callout.

When the overtime need is for an employee with either non-destructive testing or borescope blade-blending qualifications, employees lacking such qualifications will not be regarded as "eligible" as that term is used in Article 17(A)(4). If other similar situations arise during the term of the collective bargaining agreement, the parties will meet and confer regarding the appropriate handling of such cases.

When the number of employees scheduled to work on any shift in a work area is reduced due to staffing outage(s) (vacation, sick leave, leaves of absence, etc.) and overtime is called in a different work area on the same shift and bid area for reasons not related to staffing outages (four (4) hour overtime callout), no employee(s) shall be transferred to work area(s) where staffing outage(s) exist unless a number of employees working overtime on that shift(s) and bid area(s) equal to the number of outage(s) are provided the full shift of overtime as provided in Article 17(D). Similarly, when employee(s) are called for overtime on a shift and in a work area where a staffing shortage exists a number equal to the number of outage(s) shall be provided the full shift of overtime.

The language of paragraph 17(D) is not intended to change the current practice which exists in some shops and non-hub stations on the effective date of the collective bargaining agreement of calling out four (4) hours of overtime in conjunction with the start of employees' regular shifts, when such overtime is not called to cover staffing outages.

Tentative Agreement

Neither Article 17, nor this letter shall be construed to limit management's right to transfer employees between work areas, whether related to outages or otherwise, and neither Article 17, nor this letter shall be construed to require that management call overtime when outages occur.

Please indicate your concurrence by signing one copy of this letter in the place indicated below, and returning it to the undersigned.

Dear Mr. Treichler:

This will confirm our understanding regarding employees' pensions pursuant to the new collective bargaining agreement.

We have agreed that effective upon signing of the new collective bargaining agreement, through and including December 31, 2003, employees who retire prior to December 31, 2003 shall be entitled to receive the greater of pension service credit for their service with the Company prior to 1984, to a maximum of thirty (30) years, whether such time was with Texas International, Continental, Frontier, Cargo Development Group, New York Air, or PeopleExpress Airlines, or the amount calculated under the pension provisions of the 1999 collective bargaining agreement.

In addition, it is understood that effective January 1, 1999, all overtime wages will be included in pensionable earnings.

We have further agreed that, effective January 1, 2004 employees shall be entitled to receive pension service credit for their service with the Company prior to 1984, to a maximum of thirty (30) years, whether such time was with Texas International, Continental, Frontier, Cargo Development Group, New York Air, or PeopleExpress Airlines.

Re: QC Shift Bids

Dear Mr. Treichler:

This will confirm our understanding concerning proposed changes to Article 7 (K)(1) of the collective bargaining agreement as it applies to bidding into different work areas in shift bids.

We have agreed that no change is intended that would require or limit the current practice for employees who normally work in a variety of work areas. Rather, our intent is limited to ensuring that the bids of employees whose work is normally in a single bid area, such as GSE/FAC employees will be able to realize the benefit of their shift bids in different work areas in their bid areas.

Re: Troubleshooting

Dear Mr. Treichler:

This will confirm our understanding concerning the term “troubleshooting” contained in Paragraph B(3) of Article 1 of the collective bargaining agreement.

We have agreed that troubleshooting refers to activities directly related to identifying problems requiring maintenance by technicians and their underlying causes, as well as developing solutions for such problems. Troubleshooting functions may include inspection of pertinent manuals and other documentation, and/or examination of aircraft, GSE, or facilities. A management employee normally will be accompanied by a technician when troubleshooting the aircraft if hourly rated work is to be performed.

It is understood that the removal of skin or movement of panels requiring the use of tools, other than “quick access” panels is work preparatory to troubleshooting and will be performed by covered employees.

Please indicate your concurrence by signing one copy of this letter in the place indicated below, and returning it to the undersigned.

Re: Working in a Lower Classification

Dear Mr. Treichler:

This will confirm our understanding concerning proposed language changes to Articles 3(A) and (3)(D)(3) of the collective bargaining agreement as they apply to employees directed to perform the work of lower Crafts.

We have agreed that no change is intended that would alter the existing practice in regard to employees directed to perform the work of lower Crafts. The change to the collective bargaining agreement is intended only to clarify the language by placing it in a more appropriate location in the Agreement.

Please indicate your concurrence by signing one copy of this letter in the place indicated below, and returning it to the undersigned.

Dear Captain Bourne:

This will confirm our conversation regarding our commitment to maintain the Continental Airlines Retirement Plan for Technicians and related employees.

We have agreed that the current Continental Airlines Retirement Plan shall be maintained as is for Technicians and related employees, except that the Company may amend the provisions to conform to or accommodate changes in the Employee Retirement Income Security Act of 1974, as amended, or the Internal Revenue Codes. Notwithstanding the foregoing sentence, any such amendments shall not include reductions in accrued benefits or future accruals.

Additionally, notwithstanding the above, if the Company seeks to freeze the Continental Airlines Retirement Plan for Technicians and related employees, it will provide reasonable advance notice to the Union and shall fully discuss the issue. Upon notice of the Company's desire to freeze the plan, the Union may, in its sole discretion, reopen the Agreement for the limited purpose of negotiating a replacement defined benefit plan covering the Technicians and related employees. Such negotiations shall be pursuant to and governed by the provisions of Section 6 of the Railway Labor Act, but shall not encompass any topics other than those related to the establishment of a replacement defined benefit plan (including buy-outs), unless through mutual agreement the parties agree to expand the scope of topics covered by the reopener.

The parties agree that in the event the reopener negotiations remain unresolved through the negotiation and mediation procedures of Section 6, and the National Mediation Board proffers interest arbitration pursuant to Section 5, 7, and 8 of the Railway Labor Act, the parties shall both accept interest arbitration and resolve the dispute pursuant to the dispute procedures of Section 7 and 8.

The Company further agrees that it will not freeze the Continental Airlines Retirement Plan for Technicians and related employees until a replacement plan is agreed upon or established as a result of interest arbitration and such plan is implemented.

Dear Mr. Treichler:

This letter will confirm our agreement regarding the commitment of Continental Airlines, Inc. ("Continental" or the "Company") to maintain the tentatively agreed collective bargaining agreement (the "CBA") between Continental and the International Brotherhood of Teamsters ("IBT").

This letter and the commitment it contains will become effective when the CBA has been ratified in accordance with IBT's ratification requirements and fully executed by the IBT's signatories.

In consideration of the concessions provided by the CBA, the Company agrees, to the extent and for the period described herein, to forgo certain legal rights that otherwise would be available to the Company in the event that a reorganization case under chapter 11 of the United States Bankruptcy Code is commenced by or against the Company.

Specifically, Continental commits as follows:

Continental believes that the wage, work rule, and benefit concessions provided by the CBA and the reductions provided by Continental's other employee workgroups will be sufficient for it to execute a successful business plan in connection with the negotiations for the tentatively agreed collective bargaining agreement that will allow the Company to survive the difficult economic circumstances existing today and to prosper in the future. The CBA has been negotiated in good faith by both parties with precisely that objective. Should Continental nevertheless seek relief under Chapter 11 of the Bankruptcy Code, or should another party file a petition for Chapter 11 relief with respect to the Company, in either case, within one (1) year from the effective date hereof, then for the period ending eighteen months from the effective date hereof, neither Continental nor any affiliated debtor will file or support any motion or application seeking modification or rejection of the CBA pursuant to §1113 or modification of retiree benefits under §1114 of the Bankruptcy Code or file or issue a notice of intent to terminate any pension plan in which Continental's mechanics participate; provided that, the foregoing restrictions shall not apply if the Company's Board of Directors reasonably determines that (a) the Company's financial condition has materially deteriorated from the financial condition projected in the business plan presented to the IBT and as further adjusted to account for the Company's forward fuel curve calculation (or is reasonably expected to materially deteriorate within the next ninety (90) days of such determination), whether because of general economic

~~conditions or otherwise, and (b) such material deterioration presents or is reasonably expected to present a reasonable risk that the Company's future liquidity will be materially threatened, it being understood that a filing under Chapter 11 with respect to the Company will not, in and of itself, be considered as evidence of such material deterioration. However, prior to any such determination by the Company's Board of Directors and the Company's filing any such motion or application or filing or issuing any such notice, the Company agrees to provide the IBT with notice of the Board of Directors' scheduled deliberations with respect to such determination, to meet promptly with the IBT on the amount of and reasons for the projected or actual material deterioration and the material threat to the Company's future liquidity, and to discuss with the IBT possible alternatives to such determination and such motion, application, or notice as applicable. Additionally, in any such reorganization case, the Company agrees that it will not object to the appointment of an IBT representative to the official committee of unsecured creditors (and if the Company is asked by the appropriate party for the Company's views regarding such appointment, then the Company will respond favorably thereto).~~

~~Nothing herein shall limit the ability of the Company to seek relief pursuant to §1113(e) or §1114(h) if the Company's Board of Directors directs the filing of a motion or application for such relief following its reasonable determination that the Company is entitled to such relief under the standards of §1113(e) or §1114(h), as applicable (provided that, if the Board of Directors directs such motion or action, it may also authorize any action that is a prerequisite to seeking relief pursuant to §1113(e) or §1114(h) to the extent, but only to the extent, such other action is procedurally required in order to pursue relief pursuant to §1113(e) or §1114(g); it being agreed that (i) the Company would not pursue substantive relief under §1113(e) or §1114(g) pursuant to this proviso and (ii) to the extent legally effective for such purpose, the IBT may at its option waive, in writing, a requirement, if any, for the Company to file a motion pursuant to §1113(e) or §1114(g) as a prerequisite to seeking relief pursuant to §1113(e) or §1114(h) as applicable). Prior to a determination of the Board of Directors that the Company is entitled to relief under §1113(e) or §1114(h), however, the Company will provide the IBT with notice of the Board's scheduled deliberations with respect to such determination, meet promptly with the IBT to discuss the reasons for the potential determination, and discuss with the IBT possible alternatives to such determination and such motion or application.~~

~~If, consistent with and as permitted by this letter, the Company files a motion or application for relief under § 1113 or § 1114, or a notice of intent to terminate any pension plan in which Continental's mechanics participate, nothing herein will (i) relieve the Company from complying with the applicable requirements of the Bankruptcy Code and/or ERISA, (ii) prevent the IBT from opposing such relief and/or termination, or (iii) otherwise be construed as the consent of the IBT to such relief and/or termination.~~

~~Each individual executing this waiver letter is doing so only in his or her capacity as a representative of the entity that he or she represents, and not in his or her individual capacity. Dear Captain Bourne:

This confirms our discussion and agreement on protections and assignment rights and obligations when circumstances prevent technician and related employees (“technicians”) from reporting for work as planned or scheduled.

The Company recognizes that unforeseen and not reasonably anticipated events do occur that disrupt a technician’s commuting preparations. When such an event occurs and a technician is unable to commute to work, then provided that the technician had undertaken the preparatory measures outlined below, ~~on the first occasion~~ **except for repeated absences within a rolling calendar year**, the technician will not be disciplined for an attendance infraction or otherwise be subjected to discipline for failing to appear for work as assigned. ~~Subsequent~~ **Repeated** invocations of this policy **within a rolling calendar year** by the technician will be considered independent events, ~~and~~ will be judged on their own circumstances. ~~Repeated invocations of this policy and~~ may be considered in evaluations of a technician’s overall attendance/reliability. A technician who misses any part of an assigned shift due to his inability to report on a timely basis because of commuting events will not be paid for hours not worked. It is expected that supervision must exercise consideration, prudence, and good judgment when evaluating a technician’s request to be afforded the protection of this policy.

A technician who travels (i.e., commutes) by air over Company lines, from his residence to work is expected to exercise prudent judgment and planning regarding checking load factors, flight availability, forecast weather, traffic reports, and otherwise generally “planning ahead” to avoid commuting problems. For example, it is not sufficient for a technician commuting by air to utilize a flight(s) whose arrival/departure time is likely to be adversely impacted by forecasted weather events. A commuting technician remains responsible for reporting for all scheduled regular, overtime and trade shifts.

A technician commuting by air who wishes to be considered under this policy must list himself with his Base Director, or designee, as a commuter and must designate a city on the Continental Airlines/ExpressJet/**Continental Connection or United Airlines (pursuant to CO Employee Bulletin No. 20, dated Sept. 8, 2010)** route system where he resides and from which he commutes. A technician commuting by air, must exercise good judgment and exert every reasonable effort to report for work, including having the legitimate reasonable potential to commute on either of two Continental/ExpressJet flights (i.e., twenty-four (24) hours prior to the first flight’s departure time both flights must be under authorization as displayed on employeeRes, including accounting for non-revenue space available travelers that are listed and have either a higher boarding priority or greater seniority than the technician) that are scheduled

Tentative Agreement

to arrive at the point of his work shift at least one (1) hour prior to his report time. A cockpit jumpseat is not considered an available seat for commuting purposes. The commuting technician must be at the gate and have checked in for the flight(s) to be utilized for purposes of this policy.

When an unforeseen event takes place (e.g., no available seat, weight restriction, delay or cancellation due to unforeseen significant weather at the intended airport of departure or arrival, ATC or aircraft maintenance), affecting the technician's first commuting flight, the technician will immediately contact his Base Director or designee and inform him of his situation, including the status of his backup flight. If outside of normal office hours, the technician will call the applicable manager or supervisor responsible for attendance and work assignments for the work area/group. A technician will continually update the Company on his commuting progress.

Upon request, technicians will be responsible for providing documentation required by the Company to establish their compliance with the terms of this policy. This Agreement does not apply to any other circumstance or condition related to a technician's failure to report for work, or to timely report for work, including personal emergencies.

This Letter of Agreement will be effective on the date of signing, and will remain effective for six (6) months. Thereafter, it will automatically renew itself for successive periods equal to six (6) months unless either party provides at least fifteen (15) days notice of intent not to renew. In the event such notice is provided, the parties will promptly meet and seek to agree to modifications, additions and/or other changes sufficient to permit the parties to amend and continue, rather than terminate, this Agreement. ~~Should the parties fail to reach agreement within thirty (30) days, this Letter of Agreement will terminate and the protections afforded under it will be discontinued.~~

Sincerely,

/S/

Dear Captain Bourne:

This will confirm our understanding and agreement regarding employees exercising their Reduction-in-Force (RIF) options pursuant to Article 6.B.

The parties agree that employee(s) affected by a RIF may exercise Craft Seniority in the following order:

Step 1: (Article 6.B.1)

- a. The employee may exercise his seniority to bump into any Bid Area for which he is qualified under Article 3, within his Craft/classification at his station/Point; or he may chooses to displace to a lower Craft/classification at his station/Point.
- or
- b. The employee may choose to displace the system in any station/Point in the Bid Area from which he was reduced, if his seniority will allow him to do so in that Bid Area and station/Point.

Note: An employee affected by a RIF may choose to displace into any Bid Area for which he is qualified within his home station or to displace the system in his current Bid Area. These choices may overlap: for example, an employee may designate as his first three choices to displace within three different Bid Areas in his home station, designate as his fourth choice displacing within his Bid Area at another station, and his fifth choice displacing to another Bid Area within his home station, and so on. If the employee does not have sufficient seniority to displace into his Bid Area in any of the stations/Points he selects under Step 1.b, but has sufficient seniority to displace the junior employee in any Bid Area within his Craft/classification at his station/Point, the employee must displace into a Bid Area within his Craft/classification at his station/Point before moving to Step 2. An employee need not exhaust all possible options in Step 1.b (i.e., the employee will not be forced to displace the system by utilizing his seniority at stations/Points he does not select) before moving to Step 2.

Step 2: (Article 6.B.2)

If the affected employee is unable to displace in any of the Bid Areas in his home station for which he is qualified under Article 3 and any of his selected bids on the system in his Bid Area in a manner that would allow him to remain at his current base rate or higher (excluding shift premiums), he will then be permitted to displace to any position in the system, including those in

Tentative Agreement

his current Bid Area that he had not previously selected, for which he has the seniority and qualifications to hold under Article 3.

Additional Option: (Article 6.B.3)

At his option, the employee may take lay off at the point ("LOAP") in lieu of any of the foregoing.

The parties agree the purpose of this LOA is to clarify the intent of the bumping process as negotiated into Article 6.B of the 2002 collective bargaining agreement.

Dear Captain Bourne:

This will confirm our understanding and agreement regarding staffing and utilization of Technical Operations personnel.

The Parties have agreed to establish, on a local basis, committees composed of Union and Company representatives for the purpose of discussing the staffing and utilization of employees within and across bid areas and work areas. At the request of the Local Union such committees will confer, with respect to staffing and personnel assignments for special projects, targeted staffing levels in bid areas and work areas, the creation of relief or utility crews, and other local protocols and practices upon which they may agree. If the parties reach agreement, such local agreements shall not conflict with nor affect the interpretation or application of this Collective Bargaining Agreement unless expressly adopted in writing by authorized representatives of the Company and Union.

The Parties recognize the Company's maintenance practices differ, on occasion, from the expectations of employees covered by this Agreement. Accordingly, the Parties agree that:

1. The Company will endeavor to utilize personnel in the bid areas and work areas to which they are normally assigned, however the Company shall have the ability to utilize all on-duty personnel during regular hours of work in any bid area or work area to perform any work they are qualified to perform as the needs of the service require.
2. The Company will not assign or reassign employees from one bid area or work area to another to cover known outages – for example, scheduled vacations, leaves of absence, training, OJI, etc., unless and until the overtime call out process for that shift has been exhausted.
3. The assignment or reassignment of personnel from one bid area or work area to another should not cause or create the need for overtime call-out in the bid area or work area from which personnel were reassigned.
4. The Company is not required to offer overtime on the shift in the bid area or work area from which an employee was reassigned, simply because of the reassignment. When the

Tentative Agreement

need for overtime arises in the bid area or work area from which the employee(s) was reassigned, the Company, prior to calling such overtime, shall first return the employee(s) to his original bid area or work area.

5. While recognizing these principles, the Union and its members reserve the right to object and grieve any abuse or misuse in the practice of work assignments and overtime distribution.
6. If any provision of this LOA conflicts with the Collective Bargaining Agreement (CBA) the CBA will govern.

This confirms our agreement concerning IDT and RII work.

We have agreed that, under the 2009 IBT-Continental Airlines Collective Bargaining Agreement, IDT work will be treated as RII work for pay purposes. We have further agreed that if there are in the future other changes to the General Maintenance Manual that alter job titles or assignments, the parties will meet to discuss and agree to the effects of those changes.

Dear Captain Bourne:

This letter will confirm our agreement regarding the commitment the Company has assumed to ensure proper allotment concerning the staffing of Union personnel in its hub and other major maintenance stations.

The Company will continue to assume the costs of straight pay time for Union personnel at the Cleveland (CLE), Orlando (MCO), Houston Hobby (HOU), and Los Angeles (LAX) maintenance facilities, as well as any other facilities that may apply, pursuant to Article 18.M. Notwithstanding the guarantees contained in Article 18.M, however, the Company agrees to also assume the costs of straight time pay for two (2) Union personnel at both the Houston (IAH) and the Newark (EWR) facilities. The parties agree to meet and discuss modifications to these staffing levels upon significant changes to the headcount at any of these stations.

This letter of agreement shall remain in full force and effect for the duration of the current collective bargaining agreement, and shall become amendable in the same manner and at the same time as that Agreement.

Sincerely

Joseph Ferriera
