

AIR LINE TECHNICIANS  
ASSOCIATION

# .41 cents or \$852 dollars a year

In [October 2018 Delta Technicians received a 3% raise.](#)

December 6, 2018 United Technicians received [a 1% raise \(.41 cents an hour\)](#)

We will have to go another 2 years with .40 cent raises, during record industry profits.

*Here's your Teamster raise:*

## ***.41 cents is only \$852 dollars a year.***

Delta Techs received 3 times the raise we did, yet United is more profitable.

**We lost twice;** a loss of \$10,000 in yearly [Profit Sharing](#) and [No industry reset](#), thanks to the Teamsters convoluted formula.

[UAL reported 3<sup>rd</sup> Qtr.](#) diluted earnings per share increased 42% year-over-year.

[DAL reported 3<sup>rd</sup> Qtr.](#) adjusted earnings per share increased 16% year-over-year.

Appointed IBT Vinny Graziano claimed in his ["February IBT dispatch"](#) it was a good thing that we gave away our profit sharing for an increase in hourly wages at the reset. **"Dan Atkins said it was a good strategy" and United would not be profitable.** The Teamsters bet on non-union Delta against our own Company and lost.

Our Technicians should demand IBT economist Dan Akins show the breakdown of the [IBT "2018 reset" loss.](#) We paid for it. We need to see. We now have another 2 years waiting for the Teamsters **"imaginary Industry Reset"**. Just like the IBT **"double vesting pension"** that never materialized at UAL for over 8 years.

**Stop wasting your time with the myth of Teamsters representation.** They are *con artists* who have gutted our contract, **outsourced our work to China** and agreed to an **8 year pay scale** for our junior technicians in their **"money grab"** for our Pensions and Medical Benefits.

With ALTA we will hire the best professionals like [Moss Adams](#) and [Milliman](#) to represent our United Airlines technicians in open negotiations that you can attend.

**Every day we are with the Teamsters we lose money.** Now more than ever, it is clear we need a union that will provide the best professionals to help negotiate our contract and protect our membership. **Be a professional take the time to sign an ALTA card today.**

**Building a Professional Craft Union for Technicians**
