

AIR LINE TECHNICIANS
ASSOCIATION

ALTA – Our Locals and their Financial Strength

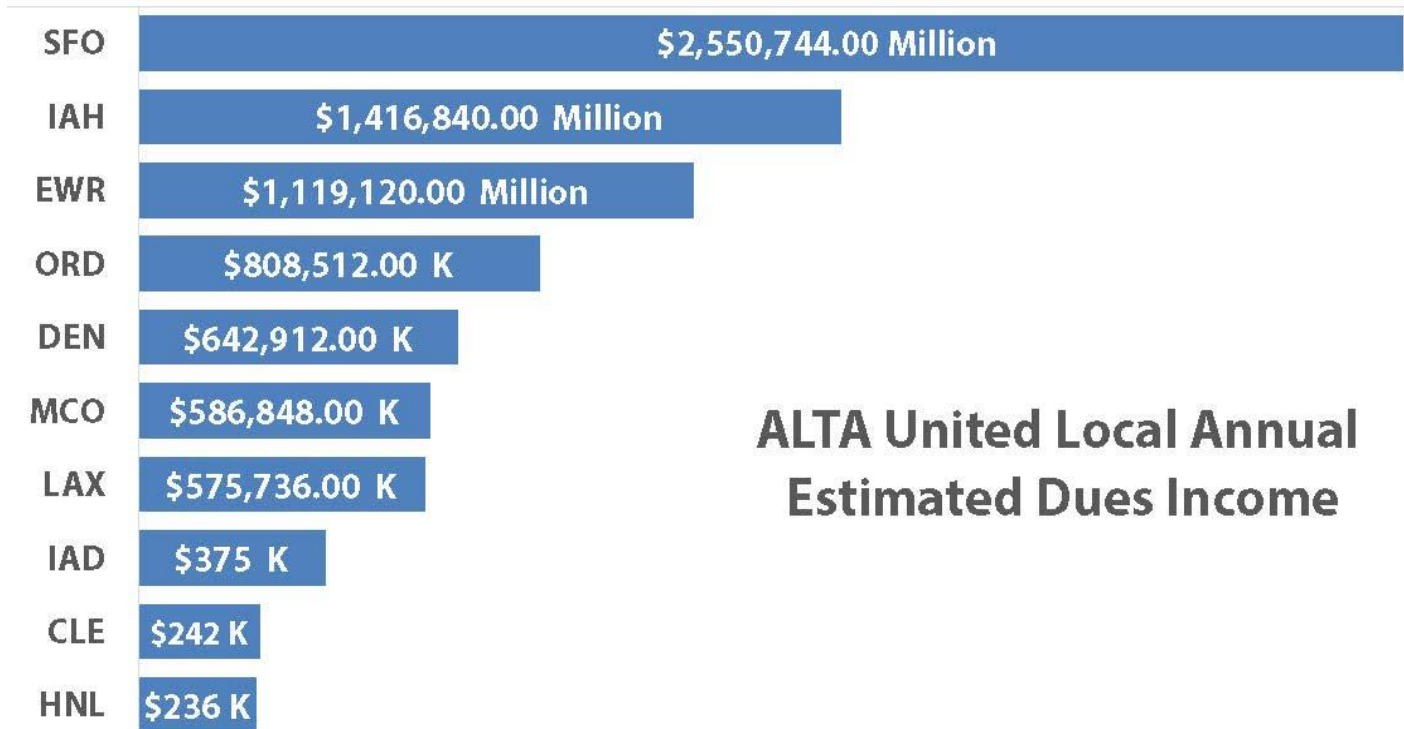

United Technicians with ALTA will have more money available per member than with the Teamsters. Millions for our Technicians, not the failed IBT union.

Ten Locals across the United Airlines system with millions of dollars in annual dues revenue.

All dues money will be controlled by United Technicians, 100% for United Technicians.

Dues will be equal for all Technicians, Leads and Inspectors at only two times your base hourly rate.

We will hire the best professionals to represent our technicians in open negotiations to protect our technicians’ contract and our rights. As each month goes by we waste millions on the Teamsters poor representation. **Every day we are with the Teamsters we lose money.**

ALTA United Local Annual Estimated Dues Income

Look at the millions that United Airlines technicians will have, with a lower dues rate.

Our money will no longer go into the pockets of IBT Officers and unelected Business Agents who routinely deny our grievances. **It’s time to end their poor representation in our profession.**

Now more than ever, it is clear we need a union that will provide the best professionals to help negotiate our contract and protect our membership.

Be a professional take the time to sign an ALTA card today.
