

**AIR LINE TECHNICIANS**  
ASSOCIATION

# ALTA – Experienced Accounting Professionals for Negotiations

**We have a proven track record of hiring the best professionals for the United Airlines Technician membership. Our history proves it.**

We hired Professional Accounting Firms like [Moss Adams](#), who conducted the United Technicians Annual Outsourcing Audit of Maintenance at United Airlines. Here are the reports.

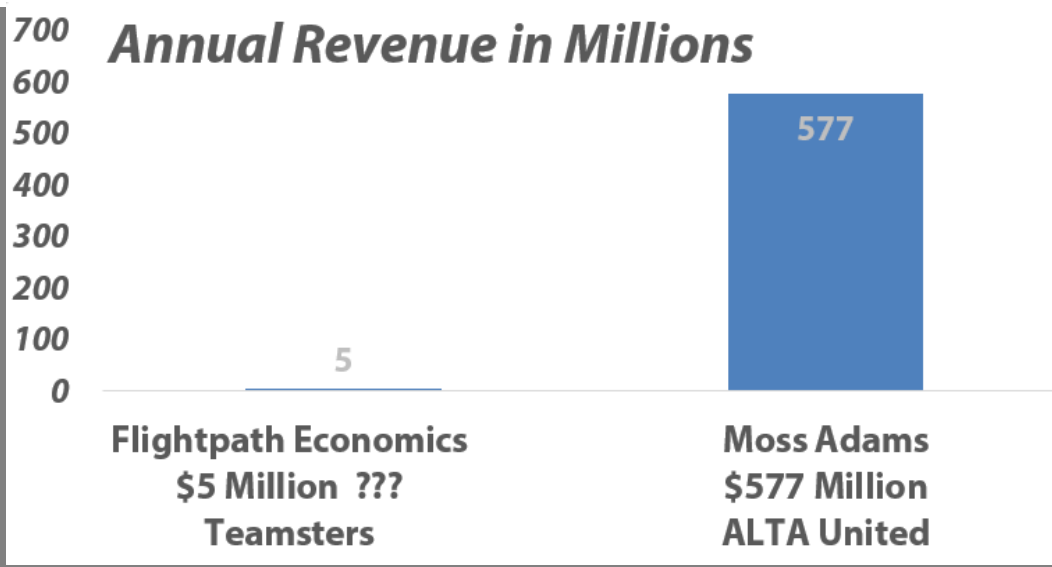

[Moss Adams 2005 United Airlines OSV Report](#)

[Moss Adams 2006 United Airlines OSV Report](#)

The Moss Adams accountants and analysts found United Airlines violated the outsourcing limits of our contract. **You can read the results for yourself at our website <http://www.altauited.com>**

The Teamsters broke the contract with Moss Adams and never performed a single audit as required in our UAL Technicians CBA. **The Teamsters outsourced all of our wide body and future work overseas.**

[Moss Adams](#) is one of the 15 largest accounting firms in the United States that specialized in the Aerospace and Defense Industries. Moss Adams had \$577 million in revenue in 2018 with over 2,900 employees.

Teamster’s disastrous “economist” [Dan Akins](#) doesn’t even compare to the professionals we hire.

[Flightpath’s](#) convoluted industry reset formula was a failure.

**Flightpath Economics \$5 million (maybe) compared to Moss Adams \$577 million there is no contest.**

With ALTA United we will hire the best professionals like [Moss Adams](#), [Crowe Horwath](#) and [Milliman Associates](#) to represent our technicians in open negotiations that you can attend. Every day we are with the Teamsters we lose money.

Now more than ever, it is clear we need a Craft union like the pilots union that will provide the best professionals to help negotiate our contract and to protect our Technician membership.

**Be a professional take the time to sign an ALTA card today.**
